CERTIFICATE OF APPROVAL
AIR
NUMBER 6982-67RL9N

The Cadillac Fairview Corporation Limited
20 Queen Street West, 5th Floor
Toronto, Ontario
M5H 3R4

Site Location: Commonwealth Building
77 Metcalfe Street
Ottawa City, Ontario,

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- natural gas fired heating/cooling equipment, having a maximum combined thermal input of 2,934,822 kilojoules per hour,

- one (1) standby diesel generator set, having a rating of 230 kilowatts, to provide power for the Commonwealth Building during emergency situations, and

- one (1) cooling tower,

all in accordance with the Application for Approval (Air) dated October 29, 2004, and all supporting documentation and information, signed by Wayne Banting, Director, Environmental and Health & Safety Services, National Operations.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the diesel emergency generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means The Cadillac Fairview Corporation Limited, and includes its successors and assignees;

(8) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(9) "Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

CONTENT COPY OF ORIGINAL

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Generator Set comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the

CONTENT COPY OF ORIGINAL

Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that no other standby generator sets, located at 50 O'Connor Street, Ottawa, Ontario, are operational during the periodic testing of the Equipment.

5. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

6. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

4. Condition No. 5 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

5. Condition No. 6 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- one (1) standby natural gas generator set, having a rating of 100 kilowatts, to provide power for the government support building during emergency situations;

all in accordance with the Application for Approval (Air & Noise) dated January 3, 2007 and signed by Chris Klassen, (Property Manager), Manulife Financial and all supporting information associated with the application including additional information provided by Goodkey, Weedmark & Associates.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the natural gas generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(5) "Ministry" means the Ontario Ministry of the Environment;

(6) "Owner" means Health Canada, and includes its successors and assignees; and

(7) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995;

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the

Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

CONTENT COPY OF ORIGINAL

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

Section 3: Terms and Conditions

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

GENERAL PROVISIONS

1 General

1.1

GENERAL

1. Except as otherwise provided by these Conditions, the Company shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Approval, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Approval.

2. Where there is a conflict between a provision of any submitted document referred to in this Approval and the Conditions of this Approval, the Conditions in this Approval shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

OPERATION AND MAINTENANCE

3. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

   (1) prepare, not later than three (3) months after the date of this Approval or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

      (a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

      (b) emergency procedures;

      (c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

      (d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

   (2) implement the recommendations of the Manual;

PERFORMANCE

4. The Company shall, at all times, ensure that the noise emissions from the Facility comply with the limits set out in Ministry Publication NPC-300.

RECORD RETENTION

5. The Company shall retain, for a minimum of two (2) years from the date of their creation, all records and information related to or resulting from the recording activities required by this Approval, and make these records available for review by staff of the Ministry upon request. The Company shall retain:

   (1) all records on the maintenance, repair and inspection of the Equipment; and

   (2) all records of any environmental complaints; including:

      (a) a description, time and date of each incident to which the complaint relates;

      (b) wind direction at the time of the incident to which the complaint relates; and

      (c) a description of the measures taken to address the cause of the incident to which the complaint relates and to prevent a similar occurrence in the future.

NOTIFICATION OF COMPLAINTS

6. The Company shall notify the District Manager, in writing, of each environmental complaint within two (2) business days of the complaint. The notification shall include:

(1) a description of the nature of the complaint; and

(2) the time and date of the incident to which the complaint relates.

Section 4: Reasons

The reasons for the imposition of these terms and conditions are as follows:

GENERAL

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the EPA, the regulations, and this Approval.

3. Condition No. 4 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to require the Company to keep records and to provide information to staff of the Ministry so that compliance with the EPA, the regulations, and this Approval can be verified.

5. Condition No. 6 is included to require the Company to notify staff of the Ministry so as to assist the Ministry with the review of the site's compliance.

Section 5: Schedules

- Schedule A

1. Application for Environmental Compliance Approval, dated June 21, 2016, submitted by 20 Vic Management Inc. and signed by Barrie Averill;

2. Air Emission Technical Memorandum, submitted by Golder Associates Ltd., dated December 23, 2016 and signed by Kate Liubansky;

3. Emergency Equipment Assessment (attachment #4) prepared by Golder Associates Ltd., dated May 2016;

4. E-mail from Kate Liubansky, Golder Associates Ltd. to the ministry, dated April 18, 2017.

In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Company shall ensure that the noise emissions from the Generator Sets comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Company shall restrict the periodic testing of the Generator Sets to the hours between 7:00 am and 11:00 pm.

5. The Company shall ensure that no other standby generator sets, located at 78 O'Connor Street, Ottawa City, are operational during the periodic testing of the Generator Sets.

6. All air intakes, openable windows or doors, or other reception points, having a stretched string distance of 37 metres or less measured from the diesel generator exhaust stack, shall be covered or closed during testing in a manner which prevents air infiltration.

7. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Conditions No. 5 and 6 are included to ensure that the nitrogen oxides emissions will not result in an adverse effect at a sensitive receptor.

5. Condition No. 7 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Company is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. all in accordance with the Application for Approval (Air) dated December 22, 2003, and all supporting documentation and information, signed by Laura-Lee Arnot (EDS Manager), EDS Canada Inc.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator sets and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Sets" means the new and existing diesel generator sets described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means EDS Canada Inc., and includes its successors and assignees; and

(8) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Generator Sets comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that:

(1) no other standby generator sets, located at 99 Bank Street, Ottawa, Ontario, are operational during the periodic testing of the Generator Sets; and,

(2) only one (1) of the two (4) standby diesel generator sets approved under this Certificate is periodically tested at any one time.

5. The Owner shall restrict the periodic testing of the Generator Sets to the daytime hours from 7:00 am to 7:00 pm.

6. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Sets.

3. Condition No. 4 is included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

CONTENT COPY OF ORIGINAL

4. Condition No. 5 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Sets.

5. Condition No. 6 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Approval, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Approval.

2. Where there is a conflict between a provision of any submitted document referred to in this Approval and the Conditions of this Approval, the Conditions in this Approval shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or Publication NPC-232, as applicable.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Approval or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

NOTIFICATION OF COMPLAINTS

5. The Owner shall notify the District Manager, in writing, of each environmental complaint and the measures taken to address the cause of the complaint within five (5) business days of the complaint.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Approval.

4. Condition No. 5 is included to require the Owner to notify staff of the Ministry so that compliance with the Act, the regulations and this Approval can be verified.

In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, 1993 , S.O. 1993, c. 28 (Environmental Bill of Rights), the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:

1. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The environmental compliance approval number;
6. The date of the environmental compliance approval;
7. The name of the Director, and;
8. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

(15) "Publication NPC-233" means Publication NPC-233, Information To Be Submitted For Approval of Stationary Sources Of Sound, October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

OPERATION AND MAINTENANCE

3. The Owner shall restrict the periodic testing of the Generator Set to the daytime hours from 7:00 am to 7:00 pm.

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

ACOUSTIC AUDIT

5. The Owner shall:

(1) ensure that the noise emissions from the Facility comply with the limits set in Publication NPC-205; and

(2) incorporate the noise abatement measures detailed in Schedule A, of this Certificate.

CONTENT COPY OF ORIGINAL

6. The Owner shall carry out acoustic audit measurements on the actual noise emissions due to the operation of the Facility, in accordance with the measurement procedures in Publication NPC-103.

7. The Owner shall submit an acoustic audit report, in accordance with Publication NPC-233, to the District Manager and the Director not later than three (3) months after the date on his Certificate.

8. The Director may not accept the results of the acoustic audit if the requirements of Publication NPC-233 were not followed.

9. If the Director does not accept the results of the acoustic audit the Director may :
a) require the Owner to repeat the acoustic audit, and/or
b) revoke this certificate, or

c) in accordance with the Act, impose additional conditions to the Owner's Certificate of Approval.

10. If the acoustic audit report indicates that the Facility is not in compliance with the noise limits stated in Ministry Publication NPC-205 then the Owner shall submit a new application for a Certificate of Approval containing a Noise Abatement Action Plan.

The Noise Abatement Action Plan shall include a detailed timetable of scheduled mitigating measures, with the objective to ensure that the noise emissions from the Facility comply with limits in Publication NPC-205. The Noise Abatement Action Plan shall also be based upon the objective to complete the implementation of the required mitigating measures by a date not exceeding six (6) months after the date noted on this Certificate.

If applicable, the new application must be sent to the District Manager and the Director, by a date not exceeding four (4) months, after the date noted on this Certificate.

SCHEDULE “A”

Note : Acoustic Report means - the noise study entitled `*Final Report , Acoustic Assessment , Ellis Don Corporation , Project No. 1006421*, prepared by Jacques Whitford Environmental Engineering Scientific Management Consultants, dated April 5, 2007.

1. One (1) muffler for the diesel engine combustion exhaust, capable of providing the following values of Insertion-Loss in 1/1 octave frequency bands:

Centre Frequency (Hertz)	63	125	250	500	1000	2000	4000	8000
Insertion-Loss (decibel)	10	30	38	30	25	20	20	20

2. One (1) 3 metre high, 6 m long acoustic barrier, located 2m from the diesel engine exhaust louvre (S22) positioned as described in Section 4.0 of the Acoustic Report, continuous without holes, gaps and other penetrations, and having surface mass at least 20 kilograms per square metres.

3. One (1) 3 metre high, 7 m long acoustic barrier, located 1m from the diesel engine intake louvre (S23) positioned as described in Section 4.0 of the Acoustic Report, continuous without holes, gaps and other penetrations, and having surface mass at least 20 kilograms per square metres.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

3. Condition No. 3 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Set.

CONTENT COPY OF ORIGINAL

4. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

5. Condition No. 5 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Facility.

6. Condition Nos. 6 and 7 are included to require the Owner to gather accurate information so that the environmental impact and subsequent compliance with the Act, the regulations and this Certificate can be verified.

7. Condition Nos. 8 and 9 are included to ensure that the acoustic audit is carried out in accordance with procedures set in the Ministry's Noise Guidelines.

8. Condition No. 10 is included to require the Owner to develop a Noise Abatement Action Plan (if necessary) designed to ensure that the noise emissions from the Facility are in compliance with applicable limits set in the Ministry's Noise Guidelines.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Generator Set and Cooling Tower comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

This Certificate of Approval revokes and replaces Certificate(s) of Approval No. 5570-67XKUY issued on April 21, 2005

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Company shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Company shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

CONTENT COPY OF ORIGINAL

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Company is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- one (1) standby diesel generator set, having a rating of 455 kilowatts, to provide power during emergency situations, exhausting to the atmosphere at a maximum volumetric flow of 1.75 actual cubic metre per second at an approximate temperature of 520 degrees Celsius, through a stack having an exit diameter of 0.4 metre, extending 1.22 metres above the local roof and 11.0 metres above grade;

all in accordance with the Application for a Certificate of Approval (Air) dated May 6, 2002 and signed by Randy Taylor, Manager, Finance & Administration, Financial Transactions and Reports Analysis Centre of Canada, and all supporting information associated with the application including additional information dated October 16, 2002 and signed by Nell van Walsum, M.Sc., Senior Environment Consultant, Water and Earth Science Associates Ltd., on behalf of Financial Transactions and Reports Analysis Centre of Canada

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(i) "Act" means the *Environmental Protection Act;*

(ii) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(iii) "Equipment" means the diesel generator set described in the Company's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(iv) “Manual” means a document or a set of documents that provide written instructions to staff of the Owner;

(v) "Ministry" means the Ontario Ministry of the Environment

(vi) "Owner" means Her Majesty the Queen - in Right of Canada as represented by Financial Transactions and Reports Analysis Centre of Canada;

(vii) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

PERFORMANCE

1. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

2. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

3. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition No. 1 is included to ensure that the nitrogen oxides emissions will not result in an adverse effect at a sensitive receptor.

2. Condition No. 2 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 3 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- one (1) standby diesel generator set, having a rating of 230 kilowatts, to provide power for the telecommunications facility during emergency situations;

all in accordance with the Application for Approval (Air) dated September 3, 2002, signed by Brian Love (Project Manager, Real Estate Services), TELUS Integrated Communications (2000) Inc, and all supporting documentation and information,

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Owner" means TELUS Integrated Communications (2000) Inc., and includes its successors and assignees;

(4) "Works" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means Ministry of Environment and Energy; and,

(7) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL CONDITION

1.1 Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the works in accordance with the description given in this Certificate, the application for approval of the works and the submitted supporting documents and plans and specifications as listed in this Certificate.

1.2 Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

2. The Owner shall ensure that the noise emissions from the works comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

3. The Owner shall restrict the periodic testing of the works to the daytime hours from 7:00 am to 7:00 pm.

4. The Owner shall ensure that the works are properly operated and maintained at all times. The Owner shall:

(1) prepare, before commencement of operation of the works, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the works, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the works suppliers;

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the works, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition No. 1 is imposed to ensure that the works are built and operated in the manner in which they were described for review and upon which approval was granted. This condition is also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 2 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the works.

3. Condition No. 3 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the works.

4. Condition No. 4 is included to emphasize that the works must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

OPERATION AND MAINTENANCE

3. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- one (1) standby diesel generator set, having a rating of 400 kilowatts, to provide power during emergency situations, exhausting to the atmosphere at a maximum volumetric flow rate of 1.61 actual cubic metres per second at an approximate temperature of 573 degrees Celsius, through a stack having an exit diameter of 0.152 metre, extending 12.1 metres above grade;

all in accordance with the Application for a Certificate of Approval (Air), and all supporting information signed by David Bordignon, MBA, M.Eng., P.Eng., and dated April 3, 2000, as well as additional information provided by Briggs Canada Limited on behalf of GT Group Telecom Services Corp., signed by David Bordignon, and dated May 23, 2000 and May 26, 2000.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(i) "Act" means the *Environmental Protection Act;*

(ii) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(iii) "Company" means GT Group Telecom Services Corp.;

(iv) "Equipment" means the diesel generator set described in the Company's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(v) “Manual” means a document or a set of documents that provide written instructions to staff of the Company;

(vi) "Ministry" means the Ontario Ministry of the Environment;

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

OPERATION AND MAINTENANCE

1. The Company shall carry out periodic testing of the Equipment at a reduced load of 30%.

2. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, before commencement of operation of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition No. 1 is included to ensure that the nitrogen oxides emissions will not result in an adverse effect at a sensitive receptor.

2. Condition No. 2 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Company is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Appeal Board within 15 days after receipt of this Notice, require a hearing by the Board. You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- one (1) standby diesel generator set, having a rating of 910 kilowatts, to provide power for the office building during emergency situations;

all in accordance with the Application for Approval (Air) dated August 16, 2004, and all supporting documentation and information, signed by M. Bergeron (Facilities Manager), Canadian Nuclear Safety Commission.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(5) "Ministry" means the Ontario Ministry of the Environment; and

(6) "Owner" means Canadian Nuclear Safety Commission, and includes its successors and assignees.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

OPERATION AND MAINTENANCE

3. The Owner shall ensure that no other standby generator sets, located at 280 Slater Street, Toronto, Ontario, are operational during the periodic testing of the Equipment.

2. Condition No. 3 is included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Estimated quantity of the soil, if any, being brought from another property to and deposited at the record of site condition property, not including any soil that may have originated at but been remediated off the record of site condition property and that is identified in section 28 of Schedule A.

Estimated quantity of soil brought to the property (in ground-volume in cubic metres)	

Ground water control or treatment measures

Ground water control or treatment measures that were required for the record of site condition property prior to the certification date for the purpose of submitting the record of site condition for filing.

Ground water control or treatment measures that are required for the record of site condition property after the certification date.

Estimated volume of ground water, if any, removed from and not returned to the record of site condition property.

Estimated volume of ground water (in litres)	

Other activities including risk management measures

Constructed works that prior to the certification date for the purpose of submitting the record of site condition for filing, were required to control or otherwise mitigate the release or movement of known existing contaminants at the record of site condition property.

Constructed works that after the certification date, are required to control or otherwise mitigate the release or movement of known existing contaminants at the record of site condition property.

Monitoring or Maintenance

Soil Management Measures

Soil monitoring requirements or any requirements for care, maintenance or replacement or any monitoring or control works for known existing contaminants, if any, on the record of site condition property, after the certification date.

Ground water management measures

Ground water monitoring requirements or requirements for care, maintenance or replacement of any monitoring or control works or known existing contaminants, if any, on the record of site condition property, after the certification date.

Remediated or removed soil, sediment or ground water from near property boundary

Has any soil, sediment or ground water at the record of site condition property that is or was located within 3 metres of the record of site condition property boundary been remediated or removed for the purpose of remediation?	Yes

Qualified person's statements and certifications

As the qualified person, I certify that:

☒ A phase one environmental site assessment of the RSC property, which includes the evaluation of the information gathered from a records review, site reconnaissance, interviews, a report and any updates as required, has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.

☒ A phase two environmental site assessment of the RSC property, which includes the evaluation of the information gathered from planning and conducting a site investigation, a report, and any updates required, has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.

☒ The information represents the site conditions at the sampling points at the time of sampling only and the conditions between and beyond the sampling points may vary.

☒ As of 2022/03/11, in my opinion, based on the phase one environmental site assessment and the phase two environmental site assessment, and any confirmatory sampling, there is no evidence of any contaminants in the soil, ground water or sediment on, in or under the RSC property that would interfere with the type of property use to which the RSC property will be put, as specified in the RSC.

☒ The RSC property and all other properties located, in whole or in part, within 250 metres of the boundary of the property are supplied by a municipal drinking water system, as defined in the *Safe Drinking Water Act, 2002*.

☒ The RSC property is not located in an area mentioned in subparagraph i and I have or the owner of the property or a person authorized by the owner of the property has, within the year immediately before the submission of this record of site condition, given written notice of intention to apply non-potable ground water site condition standards to the clerk of the municipality mentioned in subsection 35 (3) of the regulation.

☒ The owner of the property has informed me that no notice of objection was received within 30 days after receiving the notice described in subparagraph 2 iii, nor have I received such a notice.

☒ Ground water sampling has been conducted in accordance with the regulation by or under the supervision of a qualified person as required by the regulation.

☒ As of 2022/03/11, in my opinion, based on the phase one and phase two environmental site assessments and any confirmatory sampling, the RSC property meets the applicable full depth generic site condition standards prescribed by section 37 of the regulation for all contaminants prescribed by the regulation in relation to the type of property use for which this RSC is filed, except for those contaminants (if any) specified in this RSC at Table 2, maximum contaminant concentrations compared to standards specified in a risk assessment.

☒ As of 2022/03/11, the maximum known concentration of each contaminant in soil, sediment and ground water at the RSC property for which sampling and analysis has been performed is specified in this RSC at Table 1, maximum contaminant concentrations compared to applicable site condition standards.

☒ I am a qualified person and have the qualifications required by section 5 of the regulation.

☒ I have in place an insurance policy that satisfies the requirements of section 7 of the regulation.

☒ I acknowledge that the RSC will be submitted for filing in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

☒ The opinions expressed in this RSC are engineering or scientific opinions made in accordance with generally accepted principles and practices as recognized by members of the environmental engineering or science profession or discipline practising at the same time and in the same or similar location.

☒ I do not hold and have not held and my employer, if any, does not hold and has not held a direct or indirect interest in the RSC property or any property which includes the RSC property and was the subject of a phase one or two environmental site assessment or risk assessment upon which this record of site condition is based.

☒ To the best of my knowledge, the certifications and statements in this part of the RSC are true as of 2022/03/11.

☒ By signing this RSC, I make no express or implied warranties or guarantees.

By checking the boxes above, and entering my membership/licence number in this submission, I, MICHAEL BEAUDOIN, a qualified person as defined in section 5 of O. Reg. 153/04 am, on 2022/06/15:

a) signing this record of site condition as a qualified person; and
b) making all certifications required as a qualified person for this record of site condition.

☒ I Agree

Notice to Readers Concerning Due Diligence

This record of site condition has been filed on the Environment Site Registry to which the public has access and which contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

Contents of this Record of Site Condition

This record of site condition consists of this document which is available to be printed directly from the Environmental Site Registry as well as all documentation indicated in this document to have been submitted in paper format to the Ministry of the Environment.

Definitions

The following definitions are taken from the *Environmental Protection Act* or Regulation 153/04 under that Act and are included for ease of reference. The Act and Regulation should be referenced for other applicable definitions.

In this Record of Site Condition,

"Act" means the *Environmental Protection Act*, as amended;

"Cleanup Guideline 1996" means the Ministry publication entitled "Guideline for Use at Contaminated Sites in Ontario" originally dated June 1996 and later revised;

"Intended property use", in relation to a record of site condition, means the type of property use in respect of which the record of site condition is filed;

"phase one environmental site assessment" has the same meaning as defined in the Act at s. 168.1;

"phase two environmental site assessment" has the same meaning as defined in the Act at s. 168.1;

"Regulation" means Ontario Regulation 153/04, Records of Site Condition Part XV.1 of the Act, as amended;

"risk assessment" has the same meaning as defined in the Act at s. 168.1;

"RSC" means a record of site condition under Part XV.1 of the Act;

"RSC property", in relation to a record of site condition, means the property in respect of which the record of site condition is filed;

"SSRA" means a site specific risk assessment conducted in accordance with the Cleanup Guideline 1996.

Remedial Action and Mitigation

Remediated Soils

Estimate of quantities of soil, if any, originating and remaining on the RSC property that have been remediated, at a location either on or off the RSC property, to reduce the concentration of contaminants in the soil.

Soil Remediation Process	Estimated Quantity of Soil (in-situ cubic meters)
No Remediation Provided	

Removed Soils

Estimated quantity of soil or sediment, if any, removed from and not returned to the RSC property (in-situ cubic meters):
5735

Deposited Soils

Estimated quantity of soil or sediment, if any, being brought to and deposited at the RSC property not including any soil that has been remediated off the RSC property (identified in the Soil Remediation Process above) (in-situ cubic meters): 0

Remediated or Removed Soil From Near Property Boundary

Has any soil, sediment or ground water at the RSC property that is or was located within 3 meters of the RSC property boundary been remediated or removed for the purpose of remediation: NO

Ground Water Control or Treatment Measures

Ground Water Control or treatment measures that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

No groundwater control measures are required for the RSC.

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

No other activities are required to control or mitigate groundwater movement.

Other Activities Including Risk Management Measures

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No other activities are required to control or mitigate groundwater movement.

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No other activities are required to control or mitigate groundwater movement.

Monitoring or Maintenance

Soil monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

All soil has been removed from the site to the bedrock level. No soil monitoring is required at the subject site.

Ground Water monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No groundwater monitoring is required at the subject site.

Certifications

As the qualified person, and in relation to this Part of the RSC, I certify that:

1. A phase one environmental site assessment of the RSC property, which includes the evaluation of the information gathered from a records review, site visit and interviews, has been conducted in accordance with the Regulation by or under the supervision of a qualified person as required by the Regulation.

2. I have conducted or supervised a phase two environmental site assessment, which includes the evaluation of information gathered through the sampling and analysis of soil and other site investigation or assessment activities, of all or part of the

RSC property with respect to one or more contaminants, in accordance with the Regulation.

3. The information represents the site conditions at the sampling points at the time of sampling only and the conditions between and beyond the sampling points may vary.

4. As of 2004/10/26, in my opinion, based on the phase one environmental site assessment and the phase two environmental site assessment, and any confirmatory sampling, there is no evidence of any contaminants in the soil, ground water or sediment on, in or under the RSC property that would interfere with the type of property use to which the RSC property will be put, as specified in the RSC.

5. If non-potable ground water standards have been applied,

    a. I have given written notice of intention to apply non-potable ground water site condition standards to the clerk of the local municipality in which the property is located and the clerk of any upper-tier municipality in which the property is located.

    b. The owner of the property has informed me that either,

        i. the owner did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality or upper-tier municipality receiving the notice described in paragraph a, or

        ii. after receiving a notice of objection from the municipality, the municipality has withdrawn its objection and given written consent to the application of non-potable ground water standards.

    c. I did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality receiving the notice described in paragraph a, or, after I received a notice of objection from the municipality, the municipality gave written consent to the application of non-potable ground water standards.

6. As of 2004/10/26, in my opinion, based on the phase one and phase two environmental site assessments and any confirmatory sampling, the RSC property meets the applicable Full Depth site condition standards prescribed by section 37 of the Regulation for all contaminants prescribed by the Regulation in relation to the type of property use for which this RSC is filed, except for those contaminants (if any) specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards.

7. As of 2004/10/26, the maximum known concentration of each contaminant in soil, sediment and ground water at the RSC property for which sampling and analysis has been performed is specified in this RSC at Final RSC Property Profile.

8. In relation to any contaminant excepted from the certification mentioned above and as specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards, or in relation to any other contaminant that in my opinion is likely to cause an adverse effect:

    a. A risk assessment was prepared for the contaminant with respect to the property for which the phase two environmental site assessment was conducted.

    b. The Director has accepted the risk assessment under clause 168.5 (1) (a) of the Act.

    c. As of 2004/10/26, the property for which the phase two environmental site assessment was conducted meets the standards specified in the risk assessment for the contaminant.

As the qualified person, and in relation to this Part of the RSC, I also certify that:

1. I am a qualified person and have the qualifications required by section 5 of the Regulation.

2. I have in place an insurance policy that satisfies the requirements of section 7 of the Regulation.

3. I acknowledge that the RSC will be filed in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

4. The opinions expressed in this RSC are engineering or scientific opinions made in accordance with generally accepted principles and practices as recognized by members of the environmental engineering or science profession or discipline practising at the same time and in the same or similar location.

5. To the best of my knowledge, the certifications and statements in this part of the RSC are true as of 2004/10/26.

6. By signing this RSC, I make no express or implied warranties or guarantees.

I, the qualified person named below, on the date stated below, make all of the stated certifications applicable to the qualified person in this Part of the record of site condition.

RECORD FOUND IN CURRENT DATABASE

Hello,

Thank you for your request for confirmation of public information. TSSA has performed a preliminary search of TSSA's current database.

- We confirm that there are records in our current database of any fuel storage tanks at the subject address(es).

Inventory Number	Address	City	Province	Postal Code	Reason Code	Asset Type / Inventory Item
64511403	130 SLATER ST	OTTAWA	ON	K1P 6E2	Active	FS APPLIANCE
64511404	130 SLATER ST	OTTAWA	ON	K1P 6E2	Active	FS APPLIANCE

This is not a confirmation that there are no records in the archives. For a further search in our archives, please go to the **TSSA Client Portal** to complete an Application for Release of Public Information.

Please refer to How to Submit a Public Information Request (tssa.org) for instructions.

The associated fee must be paid via credit card (Visa or MasterCard).

Once all steps have been successfully completed you will receive your payment receipt via email.

TSSA does not make any representations or warranties with respect to the accuracy or completeness of any records released. The requestor assumes all risk in using or relying on the information provided.

If you have any questions or concerns, please do not hesitate to contact our Public Information Release team at publicinformationservices@tssa.org.

Submittal Requirements

The following are required to be submitted with this application:

1. **Consent to Disclose Information:** Consultants and other third parties may make requests for information on behalf of an individual or corporation. However, if the requester is not the owner of the property, **the requester must provide the City of Ottawa with a 'consent to disclose information' letter, signed by the property owner.** This will authorize the City of Ottawa to release any relevant information about the property or its owner(s) to the requester. Consent for disclosure is required in the event that personal information or proprietary company information is found concerning the property and its owner. All consents must clearly indicate the name of the property owner as well as the name of the requester, and must be signed and dated.
2. **Disclaimer:** Requesters must read and understand the conditions included in the attached disclaimer and submit a signed disclaimer to the City of Ottawa's Planning, Development and Building Services Department. This disclaimer is related to the Historic Land Use Inventory and must be received by the City of Ottawa, signed and dated by the requestor, before the process can begin.
3. **A site plan or key plan of the property, its location and particular features.**
4. **Any significant dates or time frames that you would like researched.**

Disclaimer
For use with HLUI Database

CITY OF OTTAWA ("the City") is the owner of the Historical Land Use Inventory ("HLUI"), a database of information on the type and location of land uses within the geographic area of Ottawa, which had or have the potential to cause contamination in soil, groundwater or surface water.

The City, in providing information from the HLUI, to Hailey Perras ("the Requester") does so only under the following conditions and understanding:

1. The HLUI may contain erroneous information given that such records and sources of information may be flawed. Changes in municipal addresses over time may have introduced error in such records and sources of information. The City is not responsible for any errors or omissions in the HLUI and reserves the right to change and update the HLUI without further notice. The City does not, however, make any commitment to update the HLUI. Accordingly, all information from the HLUI is provided on an "as is" basis with no representation or warranty by the City with respect to the information's accuracy or exhaustiveness in responding to the request.

2. City staff will perform a search of the HLUI based on the information given by the Requester. City staff will make every effort to be accurate, however, the City does not provide an assurance, guarantee, warranty, representation (express or implied), as to the availability, accuracy, completeness or currency of information which will be provided to the Requester. The HLUI in no way confirms the presence or absence of contamination or pollution of any kind. The information provided by the City to the Requester is provided on the assumption that it will not be relied upon by any person whatsoever. The City denies all liability to any such persons attempting to rely on any information provided from the HLUI database.

3. The City, its employees, servants, agents, boards, officials or contractors take no responsibility for any actions, claims, losses, liability, judgments, demands, expenses, costs, damages or harm suffered by any person whatsoever including negligence in compiling or disseminating information in the HLUI.

4. Copyright is reserved to the City.

5. Any use of the information provided from the HLUI which a third party makes, or any reliance on or decisions to be based on it, are the responsibilities of such third parties. The City, its employees, servants, agents, boards, officials or contractors accept no responsibility for any damages, if any, suffered by a third party as a result of decisions made as a result of an information search of the HLUI.

6. Any use of this service by the Requestor indicates an acknowledgement, acceptance and limits of this disclaimer.

7. All information collected under this request and all records provided in response to this request are subject to the provisions of the Municipal Freedom of Information and Protection of Privacy Act, R.S.O. 1990, c. M.56, as amended.

Dear Hailey Perras:

RE: MECP FOI A-2025-02352 – Decision Letter

This letter is further to your request made pursuant to the Freedom of Information and Protection of Privacy Act (the Act) relating to:

77 Metcalfe Street, Ottawa

Timeframe: January 01, 1875 to April 09, 2025

After a thorough search through the ministry files, records were located in response to your request. The final decision has been made to provide partial access to the requested information. The official responsible for making the access decision on your request is the undersigned.

Some of the information has been severed or withheld under the following sections of the Act:

- s.22(a) Records that are publicly available as follows:
  - For corporate ownership (ONBIS records, Articles of Incorporation, Articles of Amendment) download forms ON00242E and 5310E to search for a public record available from Service Ontario at https://www.ontario.ca/page/ontario-business-registry-all-services. Go to "33. Searching the Public Record" to locate the forms.

- Records or information that are not relevant to the request (e.g., records that are blank, outside of the date range or do not relate directly to the subject matter) have been removed and marked "Not Responsive"' or 'N/R'.

Section 57 of the Act authorizes certain fees to be charged for processing a request. Our charges for processing this request are:

Search Time 1.25 hours @ $30/hour o Time taken to locate and retrieve records	$37.50
Preparation Time 0.07 hours @ $30/hour o Time taken to scan hardcopy records (1,200 pages/hour)	$ 2.00
Total	**$ 39.50**

In order to receive a copy of the records please forward this amount in Canadian dollars to our office. Payment(s) may be made by **October 16, 2025**. If payment has not been received by this date, the file will be closed and you will be required to submit a new request.

The ministry's Environmental Assessment and Permissions Division (EAPD) has advised that there are inactive records in the Records Centre, Mississauga, and below is a description of these records:

- 6982-67RL9N, Air & Noise, The Cadillac Fairview Corporation Limited, Approved, Offsite, 1541, 2005

If you would like us to retrieve these files, **please submit a new request** and inform the analyst below. In the request description section, indicate you are seeking records from the Record Centre in relation to file number A-2025-02352. The $5 application fee for your new request will be applied towards any costs incurred with the retrieval of the records from the Records Centre.

Payment(s) may be made in Canadian dollars by one of the following options:

- Pay online through the Freedom of Information Request for Property Information Form: https://forms.mgcs.gov.on.ca/en/dataset/012-2146. Both the pdf download or "HTML" versions provide access to the payment option.
- Mail money order or cheque made payable to the "Minister of Finance (FOI)".

Please **do not** mail cash or send your payment information via email.

You may request a review of my decision within 30 days from the date of this letter by contacting the Information and Privacy Commissioner/Ontario at http://www.ipc.on.ca. Please note there may be a fee associated with submitting the appeal.

If you decide to pursue this request after the deadline has passed, please contact the analyst below to discuss options that are available.

Attn: Mr. S. Adatia
President

Dear Mr. Adatia:

RE: Acknowledgement of Subject Waste Registration

As prescribed by Section 15(3) of Ontario Regulation 309, this letter acknowledges receipt of your Generator Registration Report(s) dated **August 28, 1986 and telephone conversation of October 16/86 with you** for the following site:

77 Metcalfe St.
Ottawa, Ont.

The Generator Registration Number assigned to your company at this site is:

ON0517900

Please note that this Generator Registration Number must be used only in conjunction with the site for which it was issued.

Please ensure that the company name shown on this letter is complete and accurate. This would be the corporate name or, if a partnership or proprietorship, the name of the principal(s). If you intend to carry on business under a separate name or style, this should also be entered. If there is a discrepancy, it is your responsibility to re-register providing us with your complete and accurate company name.

A list of the waste stream(s) covered by this acknowledgement is attached to this letter as Schedule "A".

For **off-site** disposal of subject wastes, the waste number(s) describing the waste stream(s) in Schedule "A"

.../2

and the Generator Registration Number must be entered on manifest forms for each waste transaction after you have received this generator registration document. A copy of an example manifest form is attached for your information.

For **on-site** disposal of subject wastes covered by this acknowledgement, including on-site incineration, landfilling and discharges to sanitary sewers, every generator shall retain records for a period of at least two years. These records shall include the generator registration number, waste name(s), waste number(s), quantity and disposition of the waste(s).

For off-site disposal of any **registerable solid wastes** shown in Schedule "A" (waste classes ending in the letter "N"), manifesting is not required at this time. These wastes can be disposed of at most approved municipal landfilling sites.

The selection of accurate waste classes is the responsibility of each waste generator. This acknowledgement must not be considered as a confirmation of the accuracy of information submitted by you. Based on the information you have provided, the waste class(es) that has (have) been selected appear(s) to be correct. If, due to new information or re-assessment of information submitted, you feel your waste is inappropriately classified, you should apply for a revision to your registration using the Generator Registration Report, Form 2. Should the waste class(es) that you have selected be deemed incorrect by the Ministry, or improper waste disposal occurs at any time, you may be subject to legal action as provided by the Environmental Protection Act and Regulation 309.

Your Generator Registration Report has now been forwarded to the District Office of this Ministry that is closest to your generating site. The District Office will be conducting a post-registration audit and may be contacting you for additional information or may be conducting site visits.

It is important to note that under Section 15(4) of Ontario Regulation 309, a new Generator Registration Report must be submitted to the Ministry within fifteen (15) days for any of the following reasons:

1. If the name, address or telephone number of your company or waste generating site changes.

2. If the description, the waste class or physical or chemical characteristics of your registered wastes change(s).

3. If you generate a hazardous or liquid industrial waste that has not been registered with the Ministry.

.../3

If the quantity of registered wastes or your carrier or receiver changes, automatic re-registration is not required. However, in order to update our file, we may periodically request additional information when we observe or suspect a significant change as compared to the most recent information submitted by you for registration purposes.

Should you have any questions concerning generator registration or manifesting requirements, please contact the Waste Management Branch Reviewer identified below at 965-9668.

Yours truly,

ADDITIONAL COMMENTS:

Based on the information you have submitted in your Generator Registration Report, we have selected the waste class 241H for your spent filter cartridges contaminated with perchloroethylene. It is your responsibility to evaluate this waste class and re-register within fifteen (15) days if it is found to be inappropriate for your particular waste.

.../4

SCHEDULE "A"

This attached Schedule forms part of the acknowledgement of generator registration for the facility and site identified by Generator Registration Number **ON0517900**, dated at Toronto, this **21st** day of **October**, 1986.

Inspection Report Summary (Included in Final Report)

On May 31, 2011 Provincial Officer Anna Mae M. Dominguez of the Sector Compliance Branch- Ministry of the Environment conducted an inspection at The Commonwealth Building, an office building located at 77 Metcalfe Street, Ottawa K1P 5L6. The purpose of the inspection was to assess compliance with Ontario Regulations 102/94 and 103/94.

O. Reg. 102/94 requires the owner of the building or a group of buildings that has at least 10,000 square metres of floor area for use as offices to conduct a Waste Audit (WA) and to prepare and implement a Waste Reduction Work Plan (WRWP).

O. Reg. 103/94 requires the owner of the building or a group of buildings that has at least 10,000 square metres of floor area for use as offices to implement a Source Separation Program for the purpose of reuse or recycling of the following materials: aluminum food or beverage cans, cardboard, fine paper, glass bottles and jars, newsprint, and steel food or beverage cans.

The Officer met briefly with Mr. Barry Teevens, Maintenance Supervisor, and discussed the requirements of the Regulations as well as the waste management practices at the building. Subsequently, the Officer met with Mr. Christopher Paul, Property Manager, who confirmed that the office building is legally owned and operated by the Cadillac Fairview Corporation Limited. Mr. Paul indicated that the building's total gross leasable area is approximately 139,163 square feet (12,929 square metres). The office building meets the legislative threshold of 10,000 square metres (approximately 107,640 square feet) and is therefore subject to the requirements of the O. Regulations 102/94 and 103/94.

At the time of the inspection, Mr. Paul was unable to provide a copy of the Waste Audit and the Waste Reduction Work Plan. However, he provided a copy of the documents the following day. A review of the documents revealed a discrepancy in the estimated amount of waste generated annually between the

Re: Site Inspection at 77 Metcalfe Street, Ottawa

To Whom It May Concern:

On May 31, 2011, I attended the above noted address for the purpose of conducting an inspection. This inspection was focused on ensuring compliance with Ontario Regulations 102/94 and 103/94. I met briefly with Mr. Barry Teevens, Maintenance Supervisor, and discussed the requirements of the Regulations as well as the waste management practices at the building. Subsequently, the Officer mwt with Mr. Christopher Paul, Property Manager. From this meeting, it is my understanding that the office building has a total area of approximately 139,163 square feet (12,929 square metres) and is therefore subject to the requirements of Ontario Regulations 102/94 and 103/94. O. Reg. 102/94 requires the building owner to complete a Waste Audit and Waste Reduction Work Plan and O. Reg. 103/94 requires the Source Separation for the purpose of reuse or recycling.

Please see the attached Inspection Report number 1-D6CHZ.

I. To be in compliance, O.Reg.102/94 requires the owner to ensure the following:

1. A Waste Audit has been conducted, as required by s. 32 (1) of O. Reg. 102/94;
2. A written Report of the Waste Audit has been completed, as required by s. 32 (2) of O. Reg. 102/94;
3. The Waste Audit has been updated on a yearly basis, as required by s. 32 (3) of O. Reg. 102/94;
4. A written Waste Reduction Work Plan has been completed, as required by s. 33 (1) of O. Reg. 102/94;
5. The written Waste Reduction Work Plan has been updated on a yearly basis, as required by s. 33 (2) of O. Reg. 102/94;
6. The written Waste Reduction Work Plan has been implemented, as required by s. 34 of O. Reg. 102/94
7. The Waste Reduction Work Plan includes measures for communicating the Plan to, the employees and tenants of the building, as required by s. 35 of O. Reg. 102/94;

8. The Waste Reduction Work Plan or a Summary of the Waste Reduction Work Plan is posted, as required by s. 35 (a) of O. Reg. 102/94;

9. The employees and tenants of the building have access to the full Waste Reduction Work Plan upon request, as required by s. 35 (b) of O. Reg. 102/94;

II. To be in compliance, O.Reg.103/94 requires the owner to ensure the following

1. The office building has implemented a Source Separation Program, as required by s. 9 (1) of O. Reg. 103/94;

2. The Source Separation Program includes the provision of facilities for the collection, handling and storage of the source separated waste adequate for the quantities of the anticipated waste, as required by clause 2(1)(a) of O. Reg. 103/94;

3. The Source Separation Program includes measures to ensure the source separated wastes that are collected are removed, as required by clause 2(1)(b) of O. Reg. 103/94;

4. The Source Separation Program is being communicated to the users and potential users of it, as required by clause 2(1)(c) of O. Reg. 103/94;

5. Reasonable efforts are being made to ensure the source separated waste is reused or recycled, as required by clause 2(1)(d) of O. Reg. 103/94;

6. The Source Separation Program is separating each category of waste set out in Part V of the Schedule to O. Reg. 103/94, as required by s. 2(3) of O. Reg. 103/94;

At the time of inspection, there were **no issues of non-compliance** identified. However, you are still required to continue to update the Waste Audit and Waste Reduction Work Plan annually and to keep implementing the Source Separation Program to remain in compliance with O. Reg. 102/94 and 103/94. In addition, you are also urged to regularly communicate information to tenants to encourage full use of the program, as this will further promote separation efforts.

I have enclosed links to the relevant guidance documents and web based resources to assist you to ensure you are in compliance with Ontario Regulations 102/94 and 103/94. Inspection Report Summary

On May 31, 2011 Provincial Officer Anna Mae M. Dominguez of the Sector Compliance Branch- Ministry of the Environment conducted an inspection at The Commonwealth Building, an office building located at 77 Metcalfe Street, Ottawa K1P 5L6. The purpose of the inspection was to assess compliance with Ontario Regulations 102/94 and 103/94.

O. Reg. 102/94 requires the owner of the building or a group of buildings that has at least 10,000 square metres of floor area for use as offices to conduct a Waste Audit (WA) and to prepare and implement a Waste Reduction Work Plan (WRWP).

O. Reg. 103/94 requires the owner of the building or a group of buildings that has at least 10,000 square metres of floor area for use as offices to implement a Source Separation Program for the purpose of reuse or recycling of the following materials: aluminum food or beverage cans, cardboard, fine paper, glass bottles and jars, newsprint, and steel food or beverage cans.

The Officer met briefly with Mr. Barry Teevens, Maintenance Supervisor, and discussed the requirements of the Regulations as well as the waste management practices at the building. Subsequently, the Officer met with Mr. Christopher Paul, Property Manager, who confirmed that the office building is legally owned and operated by the Cadillac Fairview Corporation Limited. Mr. Paul indicated that the building's total gross leasable area is approximately 139,163 square feet (12,929 square metres). The office building meets the legislative threshold of 10,000 square metres (approximately 107,640 square feet) and is therefore subject to the requirements of the O. Regulations 102/94 and 103/94.

At the time of the inspection, Mr. Paul was unable to provide a copy of the Waste Audit and the Waste Reduction Work Plan. However, he provided a copy of the documents the following day. A review of the documents revealed a discrepancy in the estimated amount of waste generated annually between the Waste Audit and Waste Reduction Work Plan. This discrepancy was corrected immediately after it was identified. The documents are complete and in accordance with the requirements of the Regulation. The reports are communicated via information session with the tenant representative and housekeeping team.

At the time of the inspection, a Source Separation Program was in place the scheduled waste categories as required by O.Reg.103/94. Each tenant is provided with blue boxes. Corrugated cardboard waste, mixed container wastes (glass, plastic and metal) and mixed paper wastes are commingled and are stored at the docking area. Mixed container wastes are collected by Waste Services (CA) and paper and corrugated cardboard wastes are collected by Cascades Recovery Inc. (formerly Metro Waste Paper Recovery Inc.)

There were no issues of noncompliance observed. The site was found to be in compliance with Regulations 102/94 and 103/94. No further action required. File to be closed.

EXECUTIVE SUMMARY

Overview

Cadillac Fairview Corporation Limited retained Waste Check to perform a solid, non hazardous waste audit at the Common Wealth Building at 77 Metcalfe Street, located in Ottawa, Ontario.

Purpose

The purpose of the audit was to identify, quantify and analyze the composition of the waste stream generated by the collective functional areas within the building; to ensure compliance with the requirements detailed in The Ministry of the Environment Ontario Regulations 102/94 and 103/94; to determine the locations' ability to reduce, reuse and recycle materials from the existing waste stream on a go forward basis; to pinpoint recycling opportunities and / or opportunities to enhance and strengthen recycling initiatives currently in place; to provide the foundation for a Waste Reduction Work Plan.

Audit Methodology

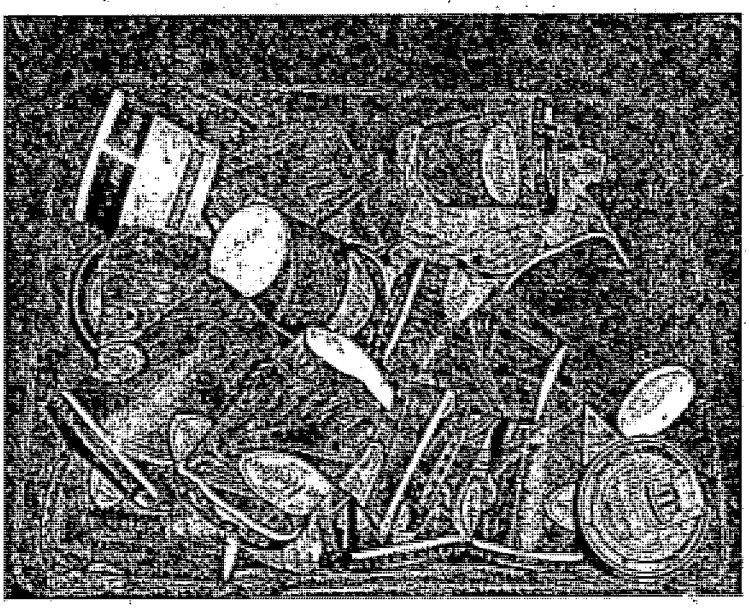
The Common Wealth Building at 77 Metcalfe Street currently utilizes 1, 4 cubic yard front end waste container for the collection and disposal of all solid, non hazardous waste. Waste was collected from the site after a one day period and then taken to an off site location for audit and analysis. An overall visual survey was completed by the Waste Check audit team; bags of waste material were opened from the container and separated into commodity type and resulting sub categories. Each commodity type and sub category was weighed individually. Waste Check audited 100% of the waste generated over the sample collection period.

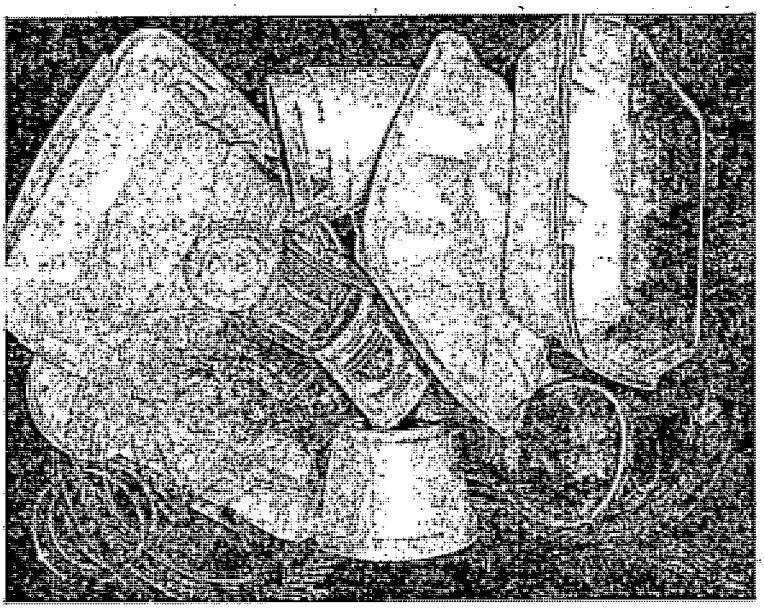
Report

The information contained in this waste audit report was gathered from the off site collective waste audit, discussions with Cadillac Fairview and Common Wealth Building personnel, and an analysis of the current waste management handling practices used on site.

CURRENT WASTE HANDLING PROCESSES AND CONTAINERS

- A contracted housekeeping company is responsible for removing all wastes from the building and depositing the bags into the 4 cubic yard front end waste container situated on site.
- The waste container is emptied five (5) times per week by a private contractor.





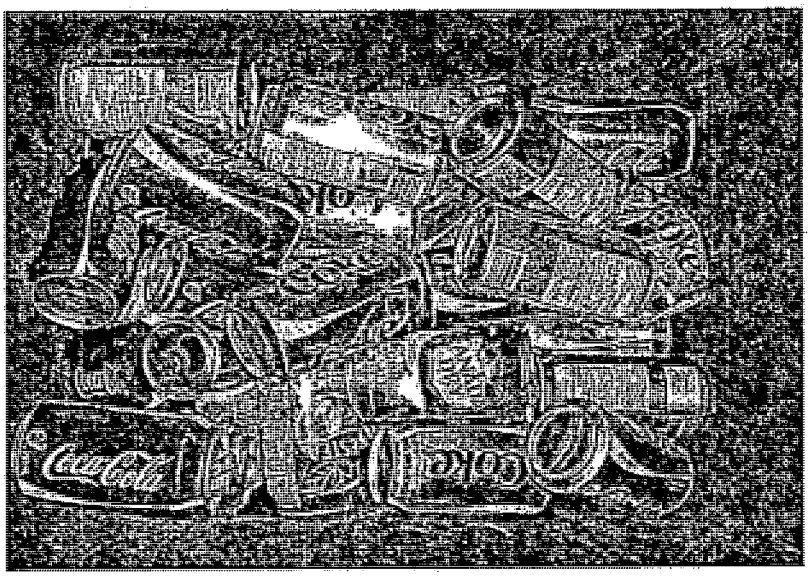
CURRENT RECYCLING INITIATIVES AND DIVERSION PROGRAM:

- Current Recycling Diversion Program includes:
  - Paper Fibres
  - Co-Mingled (plastics, steel/aluminum food and beverage cans, glass)
  - Corrugated Cardboard

- Mixed Paper Fibres are collected from throughout the building and deposited into 12, 68 gallon roll away totes which are serviced on an on call basis by a private contractor.

- Co-Mingled recycling is collected from throughout the building and placed into 6, 95 gallon roll away totes which are serviced once every four week by a private contractor.

- Corrugated Cardboard is collected and deposited into rolling carts located in the waste and recycling room. There are two cardboard bins used for collection, and they are picked up on an on call basis when needed by a private contractor, approximately once every two weeks.



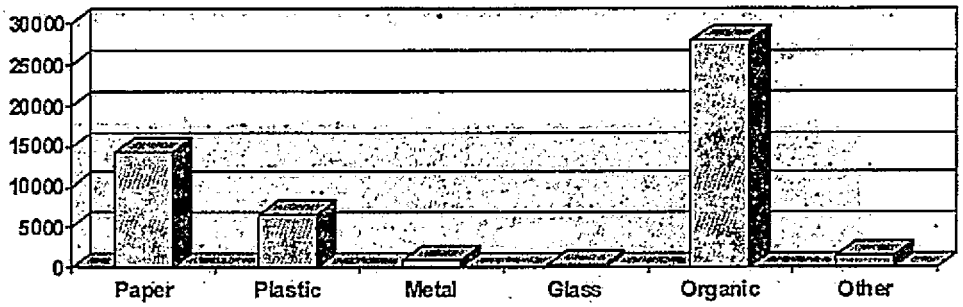
SUMMARY OF FINDINGS:

The total amount of solid, non hazardous waste generated at 77 Metcalfe Street is estimated to be 51,429.24 kilograms (kg) or 51.42 metric tonnes (t). Mixed paper fibres represent 27.92%; plastics represent 12.56%; organics represent 54.35% of the total annual waste generated at the office building.

At present, the waste stream at 77 Metcalfe Street contains recyclable materials for which programs for diversion are available:

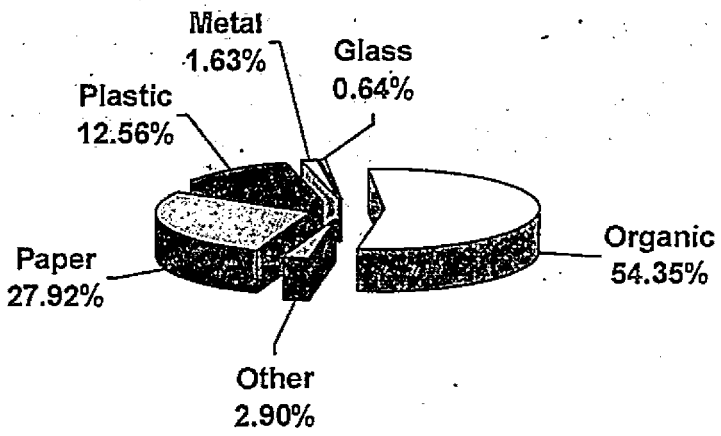
COMMON WEALTH BUILDING: 77 METCALFE STREET

Audited Waste Stream 2011



Annual Waste= 51,429.24 kg

Audited Waste Composition 2011



CURRENT ANNUAL DIVERSION RATE:

The following assumptions were applied in determining recycling weights and the resulting diversion percentage based on the available service information at the time of the waste audit:

- Based on industry standards 19,013.52 kilograms or 19.01 metric tonnes of materials were removed and recycled from 77 Metcalfe Street in 2011.

Material Diverted from Landfill:

Material	kg	t
Mixed Paper Fibres	12,827.52	12.83
Co-Mingled	2,286.00	2.28
Corrugated Cardboard	3,900.00	3.90
Total	**19,013.52**	**19.01**

General Waste: 51,429.24 kg or 51.42 t

Current Diversion Rate:
Waste .....51.42 t
Recycling.....19.01 t
Total Waste Generated.....70.43 t

Diversion Rate ***23.00%***

Therefore the current diversion rate when all initiatives are accounted for is estimated to be 23.00%.

EXTENT TO WHICH MATERIALS OR PRODUCTS USED OR SOLD BY THE ENTITY CONSIST OF RECYCLED OR REUSED MATERIALS OR PRODCUTS

1. Do you have a management policy in place that promotes the purchasing and/or use of materials or products that consist of recycled and/or reused materials or products? If yes, please describe.

   There is a sustainability program in place for the site, as outlined by Cadillac Fairview Corporation Limited (see attached).

2. Do you have plans to increase the extent to which materials or products used or sold* consist of recycled or reused materials or products? If yes, please describe.

   Yes, part of the sustainability program "Green @ Work" which is stemmed from internal auditing, brings to light the decisions surrounding the products purchased and used in the building and ensuring that there is recycled or reused content.

   * Information regarding materials or products "sold" that consist of recycled or reused materials or products is only required from owner(s) of retail shopping establishments and the owner(s) or operator(s) of large manufacturing establishments.

Please attach any additional page(s) as required to answer the above questions

I hereby certify that the information provided in this Report of Waste Audit is complete and correct.

RESPONSIBILTY FOR IMPLEMENTING THE WASTE AND REDUCTION WORK PLAN

Identify who is responsible for implementing the Waste Reduction Work Plan at your entity(ies). If more than one person is responsible for implementation, identify each person who is responsible and indicate the part of the Waste Reduction Work Plan that each person is responsible for implementing.

Name of Person	Responsibility	Telephone #
Chris Paul	Tenant/housekeeping communication and program improvement	(613) 230-3501

COMMUNICATION TO STAFF, CUSTOMERS, GUESTS AND VISITORS

Explain how the Waste Reduction Work Plan will be communicated to employees, customers, tenants, guests/visitors and students:

Written communication will be distributed or posted for all tenants and housekeeping team to read, detailing the audit results and the plan to increase and continue with recycling initiatives for all functional areas of the building. The communication will speak to the Work Plan action items and objectives, and will provide the vehicle necessary to continue towards greater diversion success.

Follow up communications will be provided to inform tenants and housekeeping of program success, challenges and/or improvements required on a continual basis. Include recycling handling and protocols for the office tenants and housekeeping team to use in new staff orientation programs, and to include in health and safety training as well.

TIMETABLE FOR IMPLEMENTING WASTE REDUCTION WORK PLAN

Provide a timetable indicating when each Source Separation and 3Rs program of the Waste Reduction Work Plan will be implemented.

Source Separation and 3Rs Program	Schedule for Completion
Example: Fine Paper 3Rs Program	*"Deskside receptacles and centralized containers to be purchased in March. EXECUTIVE SUMMARY

Overview

Cadillac Fairview Corporation Limited retained Waste Check to perform a solid, non hazardous waste audit at the Common Wealth Building at 77 Metcalfe Street, located in Ottawa, Ontario.

Purpose

The purpose of the audit was to identify, quantify and analyze the composition of the waste stream generated by the collective functional areas within the building; to ensure compliance with the requirements detailed in The Ministry of the Environment Ontario Regulations 102/94 and 103/94; to determine the locations' ability to reduce, reuse and recycle materials from the existing waste stream on a go forward basis; to pinpoint recycling opportunities and / or opportunities to enhance and strengthen recycling initiatives currently in place; to provide the foundation for a Waste Reduction Work Plan.

Audit Methodology

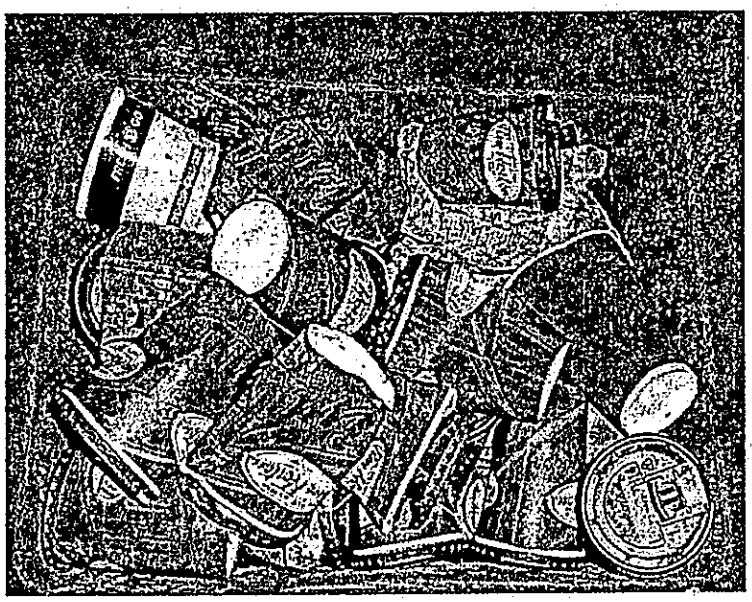
The Common Wealth Building at 77 Metcalfe Street currently utilizes 1, 4 cubic yard front end waste container for the collection and disposal of all solid, non hazardous waste. Waste was collected from the site after a one day period and then taken to an off site location for audit and analysis. An overall visual survey was completed by the Waste Check audit team; bags of waste material were opened from the container and separated into commodity type and resulting sub categories. Each commodity type and sub category was weighed individually. Waste Check audited 100% of the waste generated over the sample collection period.

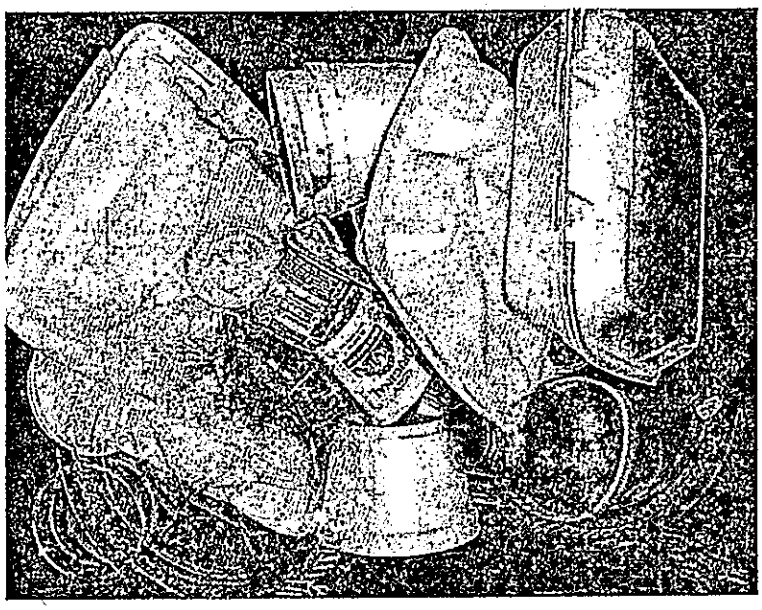
Report

The information contained in this waste audit report was gathered from the off site collective waste audit, discussions with Cadillac Fairview and Common Wealth Building personnel, and an analysis of the current waste management handling practices used on site.

CURRENT WASTE HANDLING PROCESSES AND CONTAINERS

- A contracted housekeeping company is responsible for removing all wastes from the building and depositing the bags into the 4 cubic yard front end waste container situated on site.
- The waste container is emptied five (5) times per week by a private contractor.





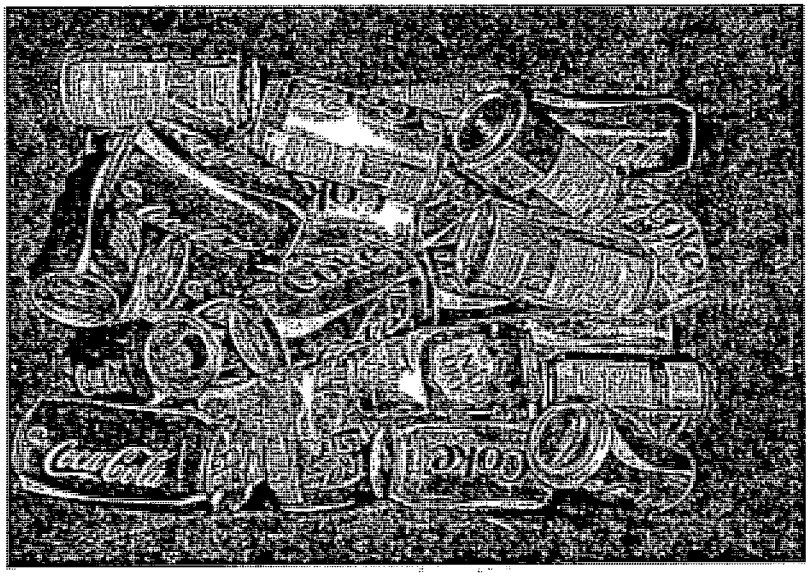
CURRENT RECYCLING INITIATIVES AND DIVERSION PROGRAM:

- Current Recycling Diversion Program includes:
  - Paper Fibres
  - Co-Mingled (plastics, steel/aluminum food and beverage cans, glass)
  - Corrugated Cardboard

- Mixed Paper Fibres are collected from throughout the building and deposited into 12, 68 gallon roll away totes which are serviced on an on call basis by a private contractor.

- Co-Mingled recycling is collected from throughout the building and placed into 6, 95 gallon roll away totes which are serviced once every four week by a private contractor.

- Corrugated Cardboard is collected and deposited into rolling carts located in the waste and recycling room. There are two cardboard bins used for collection, and they are picked up on an on call basis when needed by a private contractor, approximately once every two weeks.



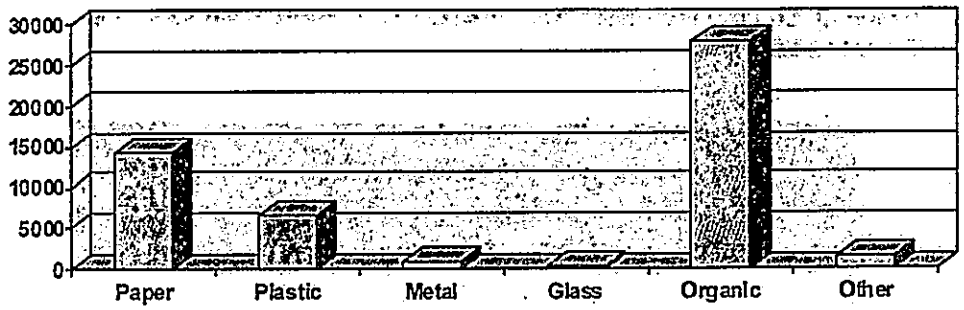
SUMMARY OF FINDINGS:

The total amount of solid, non hazardous waste generated at 77 Metcalfe Street is estimated to be 51,429.24 kilograms (kg) or 51.42 metric tonnes (t). Mixed paper fibres represent 27.92%; plastics represent 12.56%; organics represent 54.35% of the total annual waste generated at the office building.

At present, the waste stream at 77 Metcalfe Street contains recyclable materials for which programs for diversion are available:

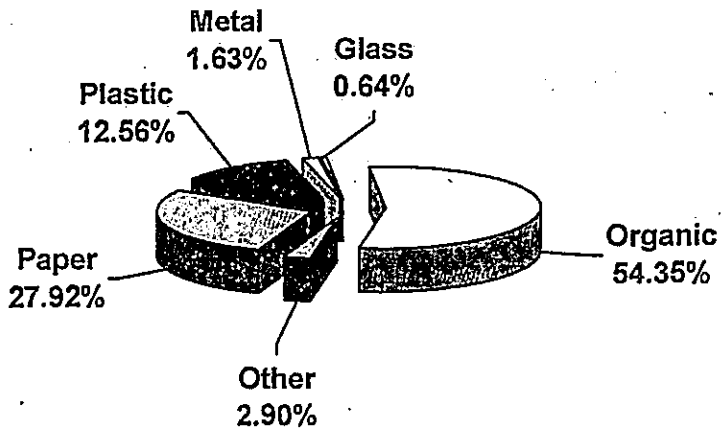
COMMON WEALTH BUILDING: 77 METCALFE STREET

Audited Waste Stream 2011



Annual Waste= 51,429.24 kg

Audited Waste Composition 2011



CURRENT ANNUAL DIVERSION RATE:

The following assumptions were applied in determining recycling weights and the resulting diversion percentage based on the available service information at the time of the waste audit:

- Based on industry standards 19,013.52 kilograms or 19.01 metric tonnes of materials were removed and recycled from 77 Metcalfe Street in 2011.

Material Diverted from Landfill:

Material	kg	t
Mixed Paper Fibres	12,827.52	12.83
Co-Mingled	2,286.00	2.28
Corrugated Cardboard	3,900.00	3.90
Total	**19,013.52**	**19.01**

General Waste: 51,429.24 kg or 51.42 t

Current Diversion Rate:
Waste .....51.42 t
Recycling.....19.01 t
Total Waste Generated.....70.43 t

Diversion Rate ***23.00%***

Therefore the current diversion rate when all initiatives are accounted for is estimated to be 23.00%.

EXTENT TO WHICH MATERIALS OR PRODUCTS USED OR SOLD BY THE ENTITY CONSIST OF RECYCLED OR REUSED MATERIALS OR PRODCUTS

1. Do you have a management policy in place that promotes the purchasing and/or use of materials or products that consist of recycled and/or reused materials or products? If yes, please describe.

   There is a sustainability program in place for the site, as outlined by Cadillac Fairview Corporation Limited (see attached).

2. Do you have plans to increase the extent to which materials or products used or sold* consist of recycled or reused materials or products? If yes, please describe.

   Yes, part of the sustainability program "Green @ Work" which is stemmed from internal auditing, brings to light the decisions surrounding the products purchased and used in the building and ensuring that there is recycled or reused content.

   * Information regarding materials or products "sold" that consist of recycled or reused materials or products is only required from owner(s) of retail shopping establishments and the owner(s) or operator(s) of large manufacturing establishments.

Please attach any additional page(s) as required to answer the above questions

I hereby certify that the information provided in this Report of Waste Audit is complete and correct.

RESPONSIBILTY FOR IMPLEMENTING THE WASTE AND REDUCTION WORK PLAN

Identify who is responsible for implementing the Waste Reduction Work Plan at your entity(ies). If more than one person is responsible for implementation, identify each person who is responsible and indicate the part of the Waste Reduction Work Plan that each person is responsible for implementing.

Name of Person	Responsibility	Telephone #
Chris Paul	Tenant/housekeeping communication and program improvement	(613) 230-3501

COMMUNICATION TO STAFF, CUSTOMERS, GUESTS AND VISITORS

Explain how the Waste Reduction Work Plan will be communicated to employees, customers, tenants, guests/visitors and students:

Written information will be presented to the tenant representative and housekeeping team, detailing the audit results and the plan to increase and continue with recycling initiatives for all functional areas of the building. The communication will speak to the Work Plan action items and objectives, and will provide the vehicle necessary to continue towards greater diversion success.

Follow up communications will be provided to inform the tenant and housekeeping of program success, challenges and/or improvements required on a continual basis. Include recycling handling and protocols for the office tenants and housekeeping team to use in new staff orientation programs, and to include in health and safety training as well.

TIMETABLE FOR IMPLEMENTING WASTE REDUCTION WORK PLAN

Provide a timetable indicating when each Source Separation and 3Rs program of the Waste Reduction Work Plan will be implemented.

Source Separation and 3Rs Program	Schedule for Completion

Anna Mae, we actually do things a little different but it should comply with the Ministry requirement.

At 10:00 a.m. on June 22, Lorraine Sutton, the rep from BFI and myself made a presentation of the audit and work plan to my facility contact at Nav Canada.

Because Nav Canada has their own facilities people and leases the entire building, they distribute information for public knowledge through the facilities department.

Obviously a waste reduction work plan performs better when all those involved are informed and to my knowledge Nav Canada makes it's employees aware of the plan and it's purpose.

I have attached the signed copy for your files but if there is anything else please feel free to contact me.

Thanks again, Chris

THE GENERAL CONDITIONS OF THE CONTRACT

1. Permits

The Contractor will, before commencing the Work, obtain and will provide to the Owner copies of whatever municipal or other governmental approvals, licences, or permits that are needed to enable the Work to be performed in accordance with this contract.

2. Materials and Equipment

a) The Contractor shall provide, at its expense, all materials and all equipment (all of which shall be of first class quality) required for the Work to meet the requirements and specifications set out in this Contract.

b) If the Contractor fails to remove any of its machinery, equipment, or other materials on the termination or completion of this contract, the Owner may remove them and, if possible, place them in storage, all at the cost and at the risk of the Contractor or if storage in the name of the Contractor is not available, the Owner may dispose of all such machinery, equipment, or other materials in whatever manner the Owner decides.

3. Taxes

The Contractor is solely responsible for and shall properly account for and pay all unemployment insurance, withholding taxes, sales taxes, or any other taxes or royalties related to the Work.

4. Standards and Time of Completion

The Contractor will complete the Work (a) in a good and workmanlike manner, in accordance with the Contract Documents including the Time Schedule, with due diligence and efficiency, (b) in full compliance with the requirements of every government authority and quasi-governmental authority having jurisdiction, and (c) without committing any damage to the Property, or any nuisance or any act which disturbs the quiet enjoyment of any occupant of the Property, and without in any way harming or threatening the business or reputation of the Owner, or any tenant or any occupant of the Property, and without reflecting unfavourably on the Property.

5. Release and Indemnity

The Contractor releases the Owner, the owners of the title (freeholder leasehold) of the Property and any mortgagee or other entity that provides funding for all of or any part of the Property and their respective officers, employees and agents (all of which are referred to collectively as the Releasees) from every claim which the Contractor might have or acquire in connection with the Work at the Property, including without limitation, any claims arising from personal injury or damage, loss or theft to property regardless of how it arises or is caused and the Contractor indemnifies the Releasees from and against every loss, cost or expense arising from or connected with the Contractors carrying out the Work at the Property, including without limitation, all claims arising from personal injury or damage, loss or theft of property regardless of how it arises or is caused.

6. Independent Contractor

The Contractor acknowledges that it is retained under this Contract not as an employee but rather as an independent Contractor and as such, the Contractor is not entitled to any benefits which the Owner gives or is required to give to its employees.

7. Satisfactory Employees

Employment of labour by the Contractor shall be affected under conditions which are satisfactory to the Owner. The Contractor will remove or cause to be removed from the Property any employee or employees who are considered unsatisfactory by the Owner. The Contractor assumes the responsibility for assuring that his working forces are compatible with other forces on the Property and is responsible for making himself aware of those forces. The Contractor acknowledges that it will employ only union labour in connection with the Work to be performed on the Property.

8. Payments

Despite anything else in this Contract, the Owner may delay any payments provided for under this Contract until such time as (a) the Contractor delivers to the Owner a statutory declaration or an affidavit confirming that the Contractor has duly completed that part of the Work that is required to be performed up to the date of the payment, (b) that there are no claims outstanding in respect to materials, labour, wages, or any other matter that is the responsibility of the Contractor to pay or perform under this Contract, (c) that there are no liens or claims for lien that are unsatisfied in respect of any part of the Work, equipment or materials as of the date that payment is requested, and(d) the Contractor is not in breach under any of its obligations under this Contract.

9. Assignment

The Contractor shall not assign this Contract or any part of it and may not employ or retain anyone, as a subcontractor or otherwise, to perform any part of its obligations under this Contract without the written consent of the Owner.

10. Liens

The Contractor waives any statutory or other rights which it may have to claim a lien against the Property, or any part of it, as a result of the Contract or its performance of its obligations under this Contract. The Contractor shall deliver to the Owner, before commencing the Work, a clearance certificate under the Workers' Compensation Act or similar legislation so as to ensure that the Property is not affected by any lien arising in respect of unpaid assessments or other amounts owed by the Contractor under Workers' Compensation legislation.

11. Owner's Termination for Default

The Owner may, without affecting its other remedies, terminate this Contract immediately without prior notice should any provision of this Contract be breached by the Contractor or if the Contractor becomes insolvent or bankrupt or abandons the Work.

12. Owner's Right of Termination

Despite anything else contained in this Contract, the Owner may, on forty-eight (48) hours notice to the Contractor, terminate this contract for any reason which the Owner determines appropriate.

13. Owner's Right to Complete Work

If the Contractor defaults under this Contract and fails to correct the default within three (3) days after the Owner notifies the Contractor and requests correction of the default, the Owner may, without affecting any right or remedy it may have (a) correct the default and deduct the cost from any payment then due or which may become due to the Contractor under this Contract of (b) terminate the Contractor's right to continue with the Work in whole or in part. If the Owner terminates the Contractor's right to continue with the Work, the Owner may take possession of the machinery, equipment and materials or the Contractor and utilize them (subject to the rights of third parties) to finish the Work by whatever method the Owner considers expedient and the Owner may withhold further payments to the Contractor until the Work is finished. On

completion of the Work, the Contractor will pay to the Owner the amount by which the full cost of finishing the Work and any additional costs and expenses which the Owner incurred in connection with the completion of the Work (including costs and expenses which the Owner may incur in retaining a substitute or other contractor to complete the Work) exceeds the unpaid balance of the contract price.

14. Contractor's Liability for Damages

The Contractor accepts full responsibility for any damage caused by the Contractor, or its officers, employees, workmen, agents, subcontractors or equipment to any part of the Property, including but not limited to buildings, parking lot, sidewalks, curbs, storefronts, doors, interior columns, walls, light standards, landscaping, furniture or equipment of the Property and will promptly remedy any of the damage in accordance with the Owner's written request.

15. Contractor's Insurance

Before commencing the Work, the Contractor shall (a) obtain the insurance coverage which a prudent contractor would maintain, and (b) without limiting the general nature of the previous requirement, provide to the Owner any evidence which the Owner requires that the Contractor maintains at least the following insurance, all endorsed to require the giving of thirty (30) days prior written notice by registered mail to the Owner of any cancellation or material change:

i) Comprehensive General Liability Insurance with inclusive limits of five million dollars ($5,000,000) per occurence in the joint names of the Contractor and the Owner. This insurance is to include contractual liability, non-owned automobile liability, owners and contractors protective insurance, a severability of interests clause and a cross liability clause. Such insurance shall be primary and not call into contribution any other insurance available to the Owner.

ii) Standard Owners Form Automobile Policy including third part liability insurance with at least $1,000,000.00 inclusive.

iii) Should the Contractor intend to use pressure vessels or machinery, Boiler and Machinery Insurance in form and to such limits as a prudent contractor would carry, but in any case in such form and with such limits as the Owner requires,

iv) Such other insurance as the Owner requires.

16. Compliance With Property Manager's Directions

The Contractor will abide by and will ensure that each of the Contractor's employees and workmen abides by the directives issued by the manager of the Property from time to time concerning deliveries of goods, equipment, machinery, and materials, restricted access areas, delivery and other access routes, use of utilities and anything else that pertains to the operation of the Property.

17. Warranty

The Contractor shall be responsible for the proper performance of the Work for a period of one year from the date of completion of the Work. The Contractor shall correct promptly, at the Contractor's expense, defects or deficiencies in the Work which appear prior to and during the warranty period and shall pay for damage resulting from such corrections. The Owner shall promptly give the Contractor notice in writing of observed defects and deficiencies that occur during the warranty period. The Contractor shall be responsible for obtaining product warranties in excess of one year on behalf of the Owner from the manufacturer. These product warranties shall be issued by the manufacturer to the benefit of the Owner.

Re: Downtown Properties Waste & Recycling Removal Proposal

Dear Rick,
Cadillac Fairview Corporation Limited is requesting quotations for the removal of general office waste as well as the recycling materials from the two properties located in the downtown core at, 77 Metcalfe Street known as The Commonwealth Building and at 191 Laurier Ave. W. known as The Sir Richard Scott Building.

Attached are two specifications outlining the buildings physical attributes as well as the requirements of the service provider during the term of the agreement.

If you have any questions please feel free to call Chris Paul, Operations manager, Ottawa Office Properties at 230-3501,

Yours truly,

The Cadillac Fairview Corporation Limited

FOR

Susan St. Clair,
General Manager, Ottawa Office Properties

CC: Christopher T. Paul, Operations Manager

Commonwealth Building
77 Metcalfe St. Ottawa, Ont.

We are asking that you take into consideration the following information when supplying your proposal

Property Description

The Commonwealth Building is a twelve storey, 141,000 square foot facility housing a single tenant, as well as a sub-let tenant at the ground floor consisting of a 30 seat restaurant which also provides catering and take out service. The waste stream from the primary tenant consists of general office materials.

The property has a recycling program consisting of plastics, metals and glass. The tenant provides a separate disposal method for all of the paper and cardboard as well as wood pallets and toner cartridges.

The access is by a curved ramp located behind 88 Metcalfe Street, through a garage door to the garbage room located in the underground parking level immediately adjacent to the garage entrance.

Specification

- Contractor to supply a 4 cubic yard garbage container, on wheels with lids, which will be emptied 5 times per week.
- Pull-out service up the ramp from underground parking, is required.
- The building is secured, so the driver, or drivers, will require a security clearance Procedure, provided by the tenant, prior to receiving a garage door pass card.
- The contractor will supply 6, .45 cubic yard recycle carts to contain glass, metal and plastic which will be emptied once a month.
- Contractor to supply a waste audit on an annual basis to be performed in the month of November
- 2 year term of agreement.
- No automatic renewal clause
- Service will be provided during normal business hours, 7:00 a.m. to 5:00 p.m. preferably in the early morning.
- Cost per ton is to be identified in the proposal.
- Cost per additional pick up for the 4 yard container is to be identified
- Cost per additional pick up for the recycle containers is to be identified.
- Service will commence June 1, 2010
- The attached pre-qualification form must accompany the proposal.
- Quotes should be delivered to Cadillac Fairview Corporation Limited, at the Cadillac Fairview Operations Office at 191 Laurier Ave. W., Suite 2000, Ottawa, Ont. K1P-1E7, on or before April 23, 2010 in a sealed envelope.

Dear Susan St. Clair and Christopher Paul,

Thank you for the opportunity in presenting our proposal for your two downtown locations in Ottawa being at 77 Metcalfe Street and 191 Laurier Avenue West. The following prices are for your consideration and are based on the information supplied as well our site inspections.

Specifications Requested

WSI understands that you require a two year term for these service agreements with no automatic renewal of the agreements. This is not a problem for us.

WSI would service both these locations early in the morning to avoid rush hour problems.

Our cost for the waste disposal is based on haulage plus disposal. Our disposal is based on $87.50 / metric tonne.

Other notes of interest are:

- We invoice our clients **after** the services have been provided.
- We offer PAD payment options on your credit cards or via cheques.
- We have an emergency service available.
- Per lift billing or monthly billing, your preference!

Hello Mr. Paul,

Thank you for addressing my comment. The changes made meet the requirements of the Regulation. However, you did not sign the certification section. I will accept this version, however, please ensure that the copy you have onsite, is signed and dated.

Please provide confirmation either written or visual that the revised (signed) Waste Reduction Work Plan or a summary of the Plan has been posted in places where most employees can see and have access to it as required by s. 45(a) and (b) of O. Reg. 102/94. Once confirmed, your file will be closed.

Thank you,
Anna Mae

Attachments: Audit Report Cadillac Fairview 2011.doc

Hi Lorraine, I have had a call from the Ministry Inspector regarding a discrepancy in the numbers between page 11 of the audit report and page 19 of the waste reduction work plan.

The numbers don't seem to be the same. I believe this to be a typo during the entry process but I could be wrong.

We need to get these numbers corrected to conform with consistency from one document to the other.

I started to look at this but I'm not sure which column would be applicable.

Can you have the individual responsible for this report to go back and change the information accordingly then Reply to All.

The inspectors address is included on this e-mail so if there are any questions feel free to ask. She is a very good Inspector and very helpful.

I would like to get this cleaned up as soon as possible.

Thanks, Chris

Hi Lorraine, I hate to bug you but I'm in a bind with this.

I really need the waste audit tomorrow as the inspector said to me, "If you can't get me the most recent audit then just send the 2010 audit".

We didn't do a 2010 audit. 2009 was completed late and we where going to tender so we skipped a year.

If I don't get this audit soon there may be a fine.

I know that's not the fault of BFI I am in this position but it would be great if you could bail me out.

Thanks, Chris

Hi Lorraine I know your away up in Thunder Bay.

I would like to go over this with my contact at Nav Canada as well so we can make arrangements to do that next week.

Right now it's a little more urgent as I need to send this badge carrying young lady a copy of the report as soon as possible.

Is there someway we can get this e-mailed to me?

Thanks for the reply Lorraine.

Good afternoon Bob, I just wrapped up my visit with the inspector from the Ministry of the Environment.

They are looking for my waste audit along with the "Waste Audit & Waste Reduction Form" which is submitted to the Ministry.

I have a day or two to come up with this so I need to know how we can get this done.

Let me know.

Thanks, Chris

I am not sure if I already answered this question or not, I apologize if I already did, but the Audit Reports are to be kept in your facility. It has to be ready in case the Ministry comes to inspect your building(s).

I hope this answers your question.

Have a nice day.

Hi Anna Mae, here is the work Plan for 191 Laurier.

My contractor WSI responded by e-mail after you had left and informed me that the Waste Audit for 77 Metcalfe will be available Friday at the latest. This worked out actually. You being here put a fire under these guys.

Instead of the VP of Operations, Rick Heward, the contact name I gave you, the lady that you may want to send your report to at the Cadillac Fairview HO is Karen Jalon. Her position is Director, National Sustainable Operations.

You can send it to the same address on Queen St. to get it to her.

Technical Evaluation

Proposal

This application is for natural gas fired combustion equipment, one (1) 230 kW diesel emergency generator, and one (1) cooling tower located at the Commonwealth building.

Equipment

- one (1) diesel emergency generator rated at 230 kW
- one (1) cooling tower
- combustion equipment as follows:

Equipment	Fuel Type	Location	Thermal Input (BTU/hr)
MUA Unit	NG		1,800,000
Water Heater	NG		100,000
Heater	NG		75,000
Heater	NG		806,400
		TOTAL	2,781,400

Anticipated Environmental Impact

Impact is anticipated as follows:

CRITERIA	PARAMETER	COMMENTS
Expected Emission Rates	(g/s) NOx (230 kW Standby generator) 1.204 NOx (combustion equipment) 0.034	Generator's emission rates are based on US EPA emission factors. Combustion equipment emission rates are based on US EPA emission factors. Consultant's emission calculations were checked and verified to be in compliance.
Reg. 346 Virtual Source Modelling Maximum Ground Level Concentration (along the	(ug/m^3) NOx (230 kW Standby generator) 152.46	The calculated concentration for the standby generator and the combustion equipment is acceptable since the allowable

property line)	NOx (combustion equipment)	4.35	guideline concentration of NOx along the property line is 1880 ug/m^3 and the combustion equipment complies with the NOx standard of 500 ug/m^3.

Noise
The adjacent land is zoned residential and commercial. The nearest area zoned as residential is 500 m from the site.

- The generator is housed indoors and is more than 20 m from the receptor; therefore a noise review is not required

Noise conditions included since cooling tower is within 500 m of residence.

District Comments
The Ottawa District Office did not express any concerns during the two week commenting period which ended on November 22, 2004.

EBR
The application was posted on EBR and no comments were received during the commenting period which ended on December 19, 2004.

Recommendations
Issuance of an approval is recommended.

Site Location: Commonwealth Building
77 Metcalfe Street
Ottawa City, Ontario,

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- natural gas fired heating/cooling equipment, having a maximum combined thermal input of 2,934,822 kilojoules per hour,

- one (1) standby diesel generator set, having a rating of 230 kilowatts, to provide power for the Commonwealth Building during emergency situations, and

- one (1) cooling tower,

all in accordance with the Application for Approval (Air) dated October 29, 2004, and all supporting documentation and information, signed by Wayne Banting, Director, Environmental and Health & Safety Services, National Operations.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the diesel emergency generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means The Cadillac Fairview Corporation Limited, and includes its successors and assignees;

(8) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(9) "Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Generator Set comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

   (1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

      (a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

Incident Information

Incident Summary:	Pro-Active SCB Inspection Completed- Office Building *cannot be longer than 60 characters*
Incident Description:	On May 31, 2011 Provincial Officer Anna Mae M. Dominguez of the Sector Compliance Branch- Ministry of the Environment conducted an inspection at The Commonwealth Building, an office building located at 77 Metcalfe Street, Ottawa K1P 5L6. The purpose of the inspection was to assess compliance with Ontario Regulations 102/94 and 103/94. O. Reg. 102/94 requires the owner of the building or a group of buildings that has at least 10,000 square metres of floor area for use as offices to conduct a Waste Audit (WA) and to prepare and implement a Waste Reduction Work Plan (WRWP). O. Reg. 103/94 requires the owner of the building or a group of buildings that has at least 10,000 square metres of floor area for use as offices to implement a Source Separation Program for the purpose of reuse or recycling of the following materials: aluminum food or beverage cans, cardboard, fine paper, glass bottles and jars, newsprint, and steel food or beverage cans. The Officer met briefly with Mr. Barry Teevens, Maintenance Supervisor, and discussed the requirements of the Regulations as well as the waste management practices at the building. Subsequently, the Officer met with Mr. Christopher Paul, Property Manager, who confirmed that the office building is legally owned and operated by the Cadillac Fairview Corporation Limited. Mr. Paul indicated that the building's total gross leasable area is approximately 139,163 square feet (12,929 square metres). The office building meets the legislative threshold of 10,000 square metres (approximately 107,640 square feet) and is therefore subject to the requirements of the O. Regulations 102/94 and 103/94. At the time of the inspection, Mr. Paul was unable to provide a copy of the Waste Audit and the Waste Reduction Work Plan. However, he provided a copy of the documents the following day. A review of the documents revealed a discrepancy in the estimated amount of waste generated annually between the Waste Audit and Waste Reduction Work Plan. This discrepancy was corrected immediately after it was identified. The documents are complete and in accordance with the requirements of the Regulation. The reports are communicated via information session with the tenant representative and housekeeping team. At the time of the inspection, a Source Separation Program was in place the scheduled waste categories as required by O.Reg.103/94. Each tenant is provided with blue boxes. Corrugated cardboard waste, mixed container wastes (glass, plastic and metal) and mixed paper wastes are commingled and are stored at the docking area. Mixed container wastes are collected by Waste Services (CA) and paper and corrugated cardboard wastes are collected by Cascades Recovery Inc. (formerly Metro Waste Paper Recovery Inc.) There were no issues of non-compliance observed. The site was found to be in compliance with Regulations 102/94 and 103/94. No further action required. File to be closed.

COPC – Contaminants of Potential Concern
UST – Underground Storage Tank
FIP – Fire Insurance Plan
TSSA – Technical Standards and Safety Authority
AST – Aboveground Storage Tank

Table B: Areas of Potential Environmental Concern (APEC)

APEC No.	Description of APEC/ Rationale	Location of APEC on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
1	A geotechnical report by others identified fill material present beneath the Site to depths between 0.43 and 0.86 m below ground surface (bgs).	Entire Site	**PCA #30** – Importation of Fill Material of Unknown Quality	On-Site	Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs, PAHs	Soil
2A	Historical presence of a dry cleaner located within the northeast portion of the Site in 1912 – 1922.	Northeast portion of the Site	**PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used)		Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs	Groundwater
2B	Historical presence of a dry cleaner located within the west central portion of the Site in 1922.	Western portion of the Site			Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs, PAHs	Soil Groundwater
2C	Historical presence of Paragon Cleaners, a dry cleaner located within the	Entire Site			Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC,	Soil Groundwater

APEC No.	Description of APEC/ Rationale	Location of APEC on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
	second level of the basement in 1986 – 1998.				SAR, PHCs F1 to F4, BTEX, VOCs	
3A	Historical use of the Site of Beamish Service Station as a gasoline service station. Two USTs with unknown volumes were identified within the northwestern portion of the Site in 1931 – 1950.	Northwest portion of the Site	**PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks	On-Site	Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs	Soil Groundwater
3B	Current and historical use of a 1,025 L diesel AST associated with a diesel backup generator located within the roof of the building.	Northeast portion of the Site			PHCs F1 to F4, BTEX, PAHs	Soil Groundwater
3C	Historical presence of two oil fired boilers located within the western portion of the Site in 1955.	Western portion of the Site			PHCs F1 to F4, BTEX, VOCs, PAHs, PCBs	Soil Groundwater

APEC No.	Description of APEC/ Rationale	Location of APEC on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
4	Current and historical presence of a transformer vault on-Site, located within the central portion of the Site.	Central portion of the Site	**PCA #55** – Transformer Manufacturing, Processing and Use	On-Site	PHCs F1 to F4, BTEX, PCBs	Soil
5	Historical use of the Site as commercial auto garage, located within the southern portion of the Site from 1922 – 1950.	Southern portion of the Site	**PCA #10** – Commercial Autobody Shop		Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs	Soil Groundwater
6	Historical use of 75 Slater Street (southeast adjacent) as an autobody shop, battery servicing with gasoline tanks (1948 – 1963), and a publisher (1997 – 2012). Known contamination was identified within an RSC completed in 2022.	Southeastern portion of the Site	**PCA Other 1** – Known Contamination	Off-Site	Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs, PAHs	Groundwater
			PCA #10 – Commercial Autobody Shops			
			PCA #6 – Battery Manufacturing, Recycling and Bulk Storage			

APEC No.	Description of APEC/ Rationale	Location of APEC on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
			PCA #28 – Gasoline and Associated Products Storage in Fixed Tanks			
7	Historical use of the property 116 Albert Street (~20 m west) as used car dealership (1950), and a newspaper publisher (2006-2007), a machinery shop (1971 – 2000).	Western portion of Site	**PCA #31** – Ink Manufacturing, Processing and Bulk Storage **PCA #34** – Metal Fabrication **PCA #10** – Commercial Autobody Shops	Off-Site	Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs	Groundwater

Notes: PHCs F1-F4 – Petroleum Hydrocarbon PAHs – Polycyclic Aromatic Hydrocarbons VOCs – Volatile Organic Compounds
BTEX – Benzene, Toluene, Ethylbenzene, Xylenes PCBs – Polychlorinated Biphenyls
