CERTIFICATE OF APPROVAL
AIR
NUMBER 6982-67RL9N

The Cadillac Fairview Corporation Limited
20 Queen Street West, 5th Floor
Toronto, Ontario
M5H 3R4

Site Location: Commonwealth Building
77 Metcalfe Street
Ottawa City, Ontario,

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- natural gas fired heating/cooling equipment, having a maximum combined thermal input of 2,934,822 kilojoules per hour,

- one (1) standby diesel generator set, having a rating of 230 kilowatts, to provide power for the Commonwealth Building during emergency situations, and

- one (1) cooling tower,

all in accordance with the Application for Approval (Air) dated October 29, 2004, and all supporting documentation and information, signed by Wayne Banting, Director, Environmental and Health & Safety Services, National Operations.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the diesel emergency generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means The Cadillac Fairview Corporation Limited, and includes its successors and assignees;

(8) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(9) “Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

CONTENT COPY OF ORIGINAL

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Generator Set comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the

CONTENT COPY OF ORIGINAL

Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

Section	Contents
Section 1	Activity Description
Section 2	Definitions
Section 3	Terms and Conditions
Section 4	Reasons
Section 5	Schedules

Section 1: Activity Description

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act, R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

GENERAL DESCRIPTION

- one (1) standby diesel generator set, having a rating of 200 kilowatts, to provide power during emergency situations;

all in accordance with the submitted application and supporting documents listed in Schedule "A" forming part of this Approval.

Section 2: Definitions

For the purpose of this environmental compliance approval, the following definitions apply:

GENERAL

1. "Approval" means this Environmental Compliance Approval, including the application and supporting documentation listed above;

2. "Company" means 20 Vic Management Inc./Societe De Gestion 20 Vic Inc., that is responsible for the construction or operation of the Facility and includes any successors and assigns;

3. "District Manager" means the District Manager of the appropriate local district office of the Ministry where the Facility is geographically located;

4. "EPA" means the Environmental Protection Act, R.S.O. 1990, c.E.19, as amended;

5. "Equipment" means equipment described in the Company's application, this Approval and in the supporting documentation submitted with the application, to the extent approved by this Approval;

6. "Facility" means the entire operation located on the property where the Equipment is located;

7. "Manual" means a document or set of documents that provide written instructions to staff of the Company;

8. "Ministry" means the Ministry of the Government of Ontario responsible for the EPA and includes all officials, employees or other persons acting on its behalf;

9. "Publication NPC-300" means the Ministry Publication NPC-300, "Environmental Noise Guideline, Stationary and Transportation Sources – Approval and Planning, Publication NPC-300", August 2013, as amended.

Section 3: Terms and Conditions

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

GENERAL PROVISIONS

1 General

1.1

GENERAL

1. Except as otherwise provided by these Conditions, the Company shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Approval, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Approval.

2. Where there is a conflict between a provision of any submitted document referred to in this Approval and the Conditions of this Approval, the Conditions in this Approval shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

OPERATION AND MAINTENANCE

3. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

   (1) prepare, not later than three (3) months after the date of this Approval or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

      (a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

      (b) emergency procedures;

      (c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

      (d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

   (2) implement the recommendations of the Manual;

PERFORMANCE

4. The Company shall, at all times, ensure that the noise emissions from the Facility comply with the limits set out in Ministry Publication NPC-300.

RECORD RETENTION

5. The Company shall retain, for a minimum of two (2) years from the date of their creation, all records and information related to or resulting from the recording activities required by this Approval, and make these records available for review by staff of the Ministry upon request. The Company shall retain:

   (1) all records on the maintenance, repair and inspection of the Equipment; and

   (2) all records of any environmental complaints; including:

      (a) a description, time and date of each incident to which the complaint relates;

      (b) wind direction at the time of the incident to which the complaint relates; and

      (c) a description of the measures taken to address the cause of the incident to which the complaint relates and to prevent a similar occurrence in the future.

NOTIFICATION OF COMPLAINTS

6. The Company shall notify the District Manager, in writing, of each environmental complaint within two (2) business days of the complaint. The notification shall include:

(1) a description of the nature of the complaint; and

(2) the time and date of the incident to which the complaint relates.

Section 4: Reasons

The reasons for the imposition of these terms and conditions are as follows:

GENERAL

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the EPA, the regulations, and this Approval.

3. Condition No. 4 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to require the Company to keep records and to provide information to staff of the Ministry so that compliance with the EPA, the regulations, and this Approval can be verified.

5. Condition No. 6 is included to require the Company to notify staff of the Ministry so as to assist the Ministry with the review of the site's compliance.

Section 5: Schedules

- Schedule A

1. Application for Environmental Compliance Approval, dated June 21, 2016, submitted by 20 Vic Management Inc. and signed by Barrie Averill;

2. Air Emission Technical Memorandum, submitted by Golder Associates Ltd., dated December 23, 2016 and signed by Kate Liubansky;

3. Emergency Equipment Assessment (attachment #4) prepared by Golder Associates Ltd., dated May 2016;

4. E-mail from Kate Liubansky, Golder Associates Ltd. to the ministry, dated April 18, 2017.

In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by

the Tribunal. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:

(8) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Company shall ensure that the noise emissions from the Generator Sets comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Company shall restrict the periodic testing of the Generator Sets to the hours between 7:00 am and 11:00 pm.

5. The Company shall ensure that no other standby generator sets, located at 78 O'Connor Street, Ottawa City, are operational during the periodic testing of the Generator Sets.

6. All air intakes, openable windows or doors, or other reception points, having a stretched string distance of 37 metres or less measured from the diesel generator exhaust stack, shall be covered or closed during testing in a manner which prevents air infiltration.

7. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the

precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Conditions No. 5 and 6 are included to ensure that the nitrogen oxides emissions will not result in an adverse effect at a sensitive receptor.

5. Condition No. 7 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Company is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- twelve (12) natural gas fired boilers, and five (5) natural gas fired heating, ventilation and air conditioning units, having a maximum combined thermal input of 44.4 Gigajoules per hour, and

- one (1) standby diesel generator set, having a rating of 750 kilowatts, identified as Generator 1, to provide power for a commercial complex during emergency situations, and

- one (1) standby diesel generator set, having a rating of 558 kilowatts, identified as Generator 2, to provide power for a commercial complex during emergency situations, and

- seven (7) cooling towers,

all in accordance with the Application for Approval (Air) dated July 12, 2006 and signed by Michael Reel, Signing Authority, bcIMC Realty Corporation, and all supporting information associated with the application provided by Pinchin Environmental Ltd., dated June 27, 2006, and signed by Shawn McDonald, BSc.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator sets, combustion equipment, and cooling towers described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Sets" means the diesel generator sets described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment;

(7) "Owner" means bcIMC Realty Corporation, and includes its successors and assignees; and

(8) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Generator Sets and cooling towers comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that:

(1) no other standby generator sets, located at 100 Queen Street, 45 O'Connor Street, and 111 Albert Street, Ottawa, Ontario, are operational during the periodic testing of the Generator Sets; and

(2) only one (1) of the two (2) standby diesel generator sets approved under this Certificate is periodically tested at any one time.

5. The Owner shall carry out periodic testing of the Generator Set under practicable reduced loading conditions.

6. The Owner shall carry out the periodic testing of the Generator Sets at reduced loads as follows:

(1) Generator 1 shall be tested at a reduced load of 25%; and

(2) Generator 2 shall be tested at a reduced load of 25%.

7. The Owner shall restrict the periodic testing of the Generator Sets to the daytime hours from 7:00 am to 7:00 pm.

8. The Owner shall ensure that the Generator Sets are properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Generator Sets, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Generator Sets, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Generator Sets suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Generator Sets;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance,

repair and inspection of the Generator Sets, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Sets and cooling towers.

3. Condition Nos. 4, 5, and 6 are included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

4. Condition No. 7 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Sets.

5. Condition No. 8 is included to emphasize that the Generator Sets must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

AMENDED PERMIT TO TAKE WATER
Surface and Ground Water

NUMBER 4504-A6AJAW

Reference Number 1612-A4ZSC8

Pursuant to Section 34.1 of the Ontario Water Resources Act, R.S.O. 1990 this Permit To Take Water is hereby issued to:

Ashcroft Urban Developments Inc.
18 Antares Dr
Ottawa, Ontario, K2E 1A9
Canada

For the water taking from: Building Excavation Sump

Located at: 111 Queen St 106-116 Sparks Street
Ottawa

For the purposes of this Permit, and the terms and conditions specified below, the following definitions apply:

DEFINITIONS

(a) "Director" means any person appointed in writing as a Director pursuant to section 5 of the OWRA for the purposes of section 34.1, OWRA.

(b) "Provincial Officer" means any person designated in writing by the Minister as a Provincial Officer pursuant to section 5 of the OWRA.

(c) "Ministry" means Ontario Ministry of the Environment and Climate Change.

(d) "District Office" means the Ottawa District Office.

(e) "Permit" means this Permit to Take Water No. 4504-A6AJAW including its Schedules, if any, issued in accordance with Section 34.1 of the OWRA.

(f) "Permit Holder" means Ashcroft Urban Developments Inc..

(g) "OWRA " means the *Ontario Water Resources Act*, R.S.O. 1990, c. O. 40, as amended.

You are hereby notified that this Permit is issued subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

1. Compliance with Permit

1.1 Except where modified by this Permit, the water taking shall be in accordance with the application for this Permit To Take Water, dated March 5, 2015 and signed by Paul Rothwell, and all Schedules included in this Permit.

1.2 The Permit Holder shall ensure that any person authorized by the Permit Holder to take water under this Permit is provided with a copy of this Permit and shall take all reasonable measures to ensure that any such person complies with the conditions of this Permit.

1.3 Any person authorized by the Permit Holder to take water under this Permit shall comply with the conditions of this Permit.

1.4 This Permit is not transferable to another person.

1.5 This Permit provides the Permit Holder with permission to take water in accordance with the conditions of this Permit, up to the date of the expiry of this Permit. This Permit does not constitute a legal right, vested or otherwise, to a water allocation, and the issuance of this Permit does not guarantee that, upon its expiry, it will be renewed.

1.6 The Permit Holder shall keep this Permit available at all times at or near the site of the taking, and shall produce this Permit immediately for inspection by a Provincial Officer upon his or her request.

1.7 The Permit Holder shall report any changes of address to the Director within thirty days of any such change. The Permit Holder shall report any change of ownership of the property for which this Permit is issued within thirty days of any such change. A change in ownership in the property shall cause this Permit to be cancelled.

2. General Conditions and Interpretation

2.1 Inspections
The Permit Holder must forthwith, upon presentation of credentials, permit a Provincial Officer to carry out any and all inspections authorized by the OWRA, the *Environmental Protection Act*, R.S.O. 1990, the *Pesticides Act*, R.S.O. 1990, or the *Safe Drinking Water Act*, S. O. 2002.

CONTENT COPY OF ORIGINAL

2.2 Other Approvals
The issuance of, and compliance with this Permit, does not:

(a) relieve the Permit Holder or any other person from any obligation to comply with any other applicable legal requirements, including the provisions of the *Ontario Water Resources Act*, and the *Environmental Protection Act*, and any regulations made thereunder; or

(b) limit in any way any authority of the Ministry, a Director, or a Provincial Officer, including the authority to require certain steps be taken or to require the Permit Holder to furnish any further information related to this Permit.

2.3 Information
The receipt of any information by the Ministry, the failure of the Ministry to take any action or require any person to take any action in relation to the information, or the failure of a Provincial Officer to prosecute any person in relation to the information, shall not be construed as:

(a) an approval, waiver or justification by the Ministry of any act or omission of any person that contravenes this Permit or other legal requirement; or

(b) acceptance by the Ministry of the information's completeness or accuracy.

2.4 Rights of Action
The issuance of, and compliance with this Permit shall not be construed as precluding or limiting any legal claims or rights of action that any person, including the Crown in right of Ontario or any agency thereof, has or may have against the Permit Holder, its officers, employees, agents, and contractors.

2.5 Severability
The requirements of this Permit are severable. If any requirements of this Permit, or the application of any requirements of this Permit to any circumstance, is held invalid or unenforceable, the application of such requirements to other circumstances and the remainder of this Permit shall not be affected thereby.

2.6 Conflicts
Where there is a conflict between a provision of any submitted document referred to in this Permit, including its Schedules, and the conditions of this Permit, the conditions in this Permit shall take precedence.

3. Water Takings Authorized by This Permit

3.1 **Expiry**
This Permit expires on **March 1, 2018**. No water shall be taken under authority of this Permit after the expiry date.

CONTENT COPY OF ORIGINAL

3.2 Amounts of Taking Permitted
The Permit Holder shall only take water from the source, during the periods and at the rates and amounts of taking specified in Table A. Water takings are authorized only for the purposes specified in Table A.

Table A

	Source Name / Description:	Source: Type:	Taking Specific Purpose:	Taking Major Category:	Max. Taken per Minute (litres):	Max. Num. of Hrs Taken per Day:	Max. Taken per Day (litres):	Max. Num. of Days Taken per Year:	Zone/ Easting/ Northing:

						Total Taking:	5,500,000		

4. Monitoring

4.1 The Permit Holder shall maintain a record of all water takings. This record shall include the dates and times of water takings, the rates of taking, and an estimated calculation of the total amounts of water taken per day for each day that water is taken under the authorization of this Permit. A separate record shall be maintained for each source. The Permit Holder shall keep all required records up to date and available at or near the site of the taking and shall produce the records immediately for inspection by a Provincial Officer upon his or her request.

5. Impacts of the Water Taking

5.1 Notification
The Permit Holder shall immediately notify the local District Office of any complaint arising from the taking of water authorized under this Permit and shall report any action which has been taken or is proposed with regard to such complaint. The Permit Holder shall immediately notify the local District Office if the taking of water is observed to have any significant impact on the surrounding waters. After hours, calls shall

be directed to the Ministry's Spills Action Centre at 1-800-268-6060.

5.2 For Surface-Water Takings
The taking of water (including the taking of water into storage and the subsequent or simultaneous withdrawal from storage) shall be carried out in such a manner that streamflow is not stopped and is not reduced to a rate that will cause interference with downstream uses of water or with the natural functions of the stream.
5.2 For Groundwater Takings
If the taking of water is observed to cause any negative impact to other water supplies obtained from any adequate sources that were in use prior to initial issuance of a Permit for this water taking, the Permit Holder shall take such action necessary to make available to those affected, a supply of water equivalent in quantity and quality to their normal takings, or shall compensate such persons for their reasonable costs of so doing, or shall reduce the rate and amount of taking to prevent or alleviate the observed negative impact. Pending permanent restoration of the affected supplies, the Permit Holder shall provide, to those affected, temporary water supplies adequate to meet their normal requirements, or shall compensate such persons for their reasonable costs of doing so.

If permanent interference is caused by the water taking, the Permit Holder shall restore the water supplies of those permanently affected.

5.3 Prevention of Adverse Effects:
The Permit Holder shall ensure the taking of water under authority of this Permit does not result in an adverse effect on area waters.

5.4 Prevention of Structural Adverse Effects:
The Permit Holder shall take all measures necessary to prevent damage to buildings, bridges, structures, roads and/or railway lines that may be impacted either directly or indirectly by this taking.

5.5 Discharge Control Measures for Water that is Discharged to the Natural Environment:
Siltation control measures shall be installed at the discharge site(s) and shall be sufficient to control the volumes. Continuous care shall be taken to properly maintain the siltation control devices.

5.6 The discharge of water shall be controlled in such a way as to avoid erosion and sedimentation in the receiving stream.

5.7 The Permit Holder shall ensure that any water discharged to the natural environment does not result in scouring, erosion or physical alteration of stream channels or banks and that there is no flooding in the receiving area or water body, downstream water bodies, ditches or properties caused or worsened by this discharge.

5.8 The Permit Holder shall not discharge turbid water to any watercourse. Turbid water shall be defined as any discharge water from the excavation or diverted water with a maximum increase of 8 NTUs above the receiving stream's background levels.

5.9 Discharged Water to the Sanitary or Storm Sewer System:
The Permit Holder shall ensure that any water that is taken for dewatering purposes and discharged to the City of Ottawa sewer system is in accordance with a City of Ottawa Sewer Use Agreement.

6. Director May Amend Permit
The Director may amend this Permit by letter requiring the Permit Holder to suspend or reduce the taking to an amount or threshold specified by the Director in the letter. The suspension or reduction in taking shall be effective immediately and may be revoked at any time upon notification by the Director. This condition does not affect your right to appeal the suspension or reduction in taking to the Environmental Review Tribunal under the *Ontario Water Resources Act*, Section 100 (4).

The reasons for the imposition of these terms and conditions are as follows:

1. Condition 1 is included to ensure that the conditions in this Permit are complied with and can be enforced.

2. Condition 2 is included to clarify the legal interpretation of aspects of this Permit.

3. Conditions 3 through 6 are included to protect the quality of the natural environment so as to safeguard the ecosystem and human health and foster efficient use and conservation of waters. These conditions allow for the beneficial use of waters while ensuring the fair sharing, conservation and sustainable use of the waters of Ontario. The conditions also specify the water takings that are authorized by this Permit and the scope of this Permit.

In accordance with Section 100 of the Ontario Water Resources Act, R.S.O. 1990, you may by written notice served upon me, the Environmental Review Tribunal and the Environmental Commissioner, ***Environmental Bill of Rights****, R.S.O. 1993, Chapter 28, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 101 of the Ontario Water Resources Act, as amended provides that the Notice requiring a hearing shall state:*

1. The portions of the Permit or each term or condition in the Permit in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

In addition to these legal requirements, the Notice should also include:

a. The name of the appellant;
b. The address of the appellant;
c. The Permit to Take Water number;

d. The date of the Permit to Take Water;

e. The name of the Director;

f. The municipality within which the works are located;

1.4 This Permit is not transferable to another person.

1.5 This Permit provides the Permit Holder with permission to take water in accordance with the conditions of this Permit, up to the date of the expiry of this Permit. This Permit does not constitute a legal right, vested or otherwise, to a water allocation, and the issuance of this Permit does not guarantee that, upon its expiry, it will be renewed.

1.6 The Permit Holder shall keep this Permit available at all times at or near the site of the taking, and shall produce this Permit immediately for inspection by a Provincial Officer upon his or her request.

1.7 The Permit Holder shall report any changes of address to the Director within thirty days of any such change. The Permit Holder shall report any change of ownership of the property for which this Permit is issued within thirty days of any such change. A change in ownership in the property shall cause this Permit to be cancelled.

2. General Conditions and Interpretation

2.1 Inspections
The Permit Holder must forthwith, upon presentation of credentials, permit a Provincial Officer to carry out any and all inspections authorized by the OWRA, the *Environmental Protection Act*, R.S.O. 1990, the *Pesticides Act*, R.S.O. 1990, or the *Safe Drinking Water Act*, S. O. 2002.

2.2 Other Approvals
The issuance of, and compliance with this Permit, does not:

(a) relieve the Permit Holder or any other person from any obligation to comply with any other applicable legal requirements, including the provisions of the *Ontario Water Resources Act*, and the *Environmental Protection Act*, and any regulations made thereunder; or

(b) limit in any way any authority of the Ministry, a Director, or a Provincial Officer, including the authority to require certain steps be taken or to require the Permit Holder to furnish any further information related to this Permit.

2.3 Information

The receipt of any information by the Ministry, the failure of the Ministry to take any action or require any person to take any action in relation to the information, or the failure of a Provincial Officer to prosecute any person in relation to the information, shall not be construed as:

(a) an approval, waiver or justification by the Ministry of any act or omission of any person that contravenes this Permit or other legal requirement; or

(b) acceptance by the Ministry of the information's completeness or accuracy.

2.4 Rights of Action
The issuance of, and compliance with this Permit shall not be construed as precluding or limiting any legal claims or rights of action that any person, including the Crown in right of Ontario or any agency thereof, has or may have against the Permit Holder, its officers, employees, agents, and contractors.

2.5 Severability
The requirements of this Permit are severable. If any requirements of this Permit, or the application of any requirements of this Permit to any circumstance, is held invalid or unenforceable, the application of such requirements to other circumstances and the remainder of this Permit shall not be affected thereby.

2.6 Conflicts
Where there is a conflict between a provision of any submitted document referred to in this Permit, including its Schedules, and the conditions of this Permit, the conditions in this Permit shall take precedence.

3. Water Takings Authorized by This Permit

3.1 **Expiry**
This Permit expires on **April 30, 2016**. No water shall be taken under authority of this Permit after the expiry date.

3.2 Amounts of Taking Permitted
The Permit Holder shall only take water from the source, during the periods and at the rates and amounts of taking specified in Table A. Water takings are authorized only for the purposes specified in Table A.

Table A

	Source Name / Description:	Source: Type:	Taking Specific Purpose:	Taking Major Category:	Max. Taken per Minute (litres):	Max. Num. of Hrs Taken per Day:	Max. Taken per Day (litres):	Max. Num. of Days Taken per Year:	Zone/ Easting/ Northing:
1	Building Excavation Sump - Higher Inflows	Pond Dugout	Construction	Dewatering Construction	10,000	24	5,500,000	90	18 445430 5030120
2	Building Excavation Sump - Steady State	Pond Dugout	Construction	Dewatering Construction	10,000	24	1,500,000	274	18 445430 5030120
						Total Taking:	5,500,000		

4. Monitoring

4.1 The Permit Holder shall maintain a record of all water takings. This record shall include the dates and times of water takings, the rates of taking, and an estimated calculation of the total amounts of water taken per day for each day that water is taken under the authorization of this Permit. A separate record shall be maintained for each source. The Permit Holder shall keep all required records up to date and available at or near the site of the taking and shall produce the records immediately for inspection by a Provincial Officer upon his or her request.

5. Impacts of the Water Taking

5.1 Notification
The Permit Holder shall immediately notify the local District Office of any complaint arising from the taking of water authorized under this Permit and shall report any action which has been taken or is proposed with regard to such complaint. The Permit Holder shall immediately notify the local District Office if the taking of water is observed to have any significant impact on the surrounding waters. After hours, calls shall be directed to the Ministry's Spills Action Centre at 1-800-268-6060.

5.2 For Surface-Water Takings
The taking of water (including the taking of water into storage and the subsequent or simultaneous withdrawal from storage) shall be carried out in such a manner that streamflow is not stopped and is not reduced to a rate that will cause interference with downstream uses of water or with the natural functions of the stream.

For Groundwater Takings
If the taking of water is observed to cause any negative impact to other water supplies obtained from any adequate sources that were in use prior to initial issuance of a Permit for this water taking, the Permit Holder shall take such action necessary to make available to those affected, a supply of water equivalent in quantity and quality to their normal takings, or shall compensate such persons for their reasonable costs of so doing, or shall reduce the rate and amount of taking to prevent or alleviate the observed negative impact. Pending permanent restoration of the affected supplies, the Permit Holder shall provide, to those affected, temporary water supplies adequate to meet their normal requirements, or shall compensate such persons for their reasonable costs of doing so.

If permanent interference is caused by the water taking, the Permit Holder shall restore the water supplies of those permanently affected.

5.3 Prevention of Adverse Effects:
The Permit Holder shall ensure the taking of water under authority of this Permit does not result in an adverse effect on area waters.

5.4 Prevention of Structural Adverse Effects:
The Permit Holder shall take all measures necessary to prevent damage to buildings, bridges, structures, roads and/or railway lines that may be impacted either directly or indirectly by this taking.

5.5 Discharge Control Measures for Water that is Discharged to the Natural Environment:
Siltation control measures shall be installed at the discharge site(s) and shall be sufficient to control the volumes. Continuous care shall be taken to properly maintain the siltation control devices.

5.6 The discharge of water shall be controlled in such a way as to avoid erosion and sedimentation in the receiving stream.

5.7 The Permit Holder shall ensure that any water discharged to the natural environment does not result in scouring, erosion or physical alteration of stream channels or banks and that there is no flooding in the receiving area or water body, downstream water bodies, ditches or properties caused or worsened by this discharge.

5.8 The Permit Holder shall not discharge turbid water to any watercourse. Turbid water shall be defined as any discharge water from the excavation or diverted water with a maximum increase of 8 NTUs above the receiving stream's background levels.

5.9 Discharged Water to the Sanitary or Storm Sewer System:
The Permit Holder shall ensure that any water that is taken for dewatering purposes and discharged to the City of Ottawa sewer system is in accordance with a City of Ottawa Sewer Use Agreement.

6. Director May Amend Permit

The Director may amend this Permit by letter requiring the Permit Holder to suspend or reduce the taking to an amount or threshold specified by the Director in the letter. The suspension or reduction in taking shall be effective immediately and may be revoked at any time upon notification by the Director. This condition does

not affect your right to appeal the suspension or reduction in taking to the Environmental Review Tribunal under the *Ontario Water Resources Act*, Section 100 (4).

The reasons for the imposition of these terms and conditions are as follows:

1. Condition 1 is included to ensure that the conditions in this Permit are complied with and can be enforced.

2. Condition 2 is included to clarify the legal interpretation of aspects of this Permit.

3. Conditions 3 through 6 are included to protect the quality of the natural environment so as to safeguard the ecosystem and human health and foster efficient use and conservation of waters. These conditions allow for the beneficial use of waters while ensuring the fair sharing, conservation and sustainable use of the waters of Ontario. The conditions also specify the water takings that are authorized by this Permit and the scope of this Permit.

In accordance with Section 100 of the Ontario Water Resources Act, R.S.O. 1990, you may by written notice served upon me, the Environmental Review Tribunal and the Environmental Commissioner, ***Environmental Bill of Rights****, R.S.O. 1993, Chapter 28, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 101 of the Ontario Water Resources Act, as amended provides that the Notice requiring a hearing shall state:*

1. The portions of the Permit or each term or condition in the Permit in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

In addition to these legal requirements, the Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Permit to Take Water number;
6. The date of the Permit to Take Water;
7. The name of the Director;
8. The municipality within which the works are located;

Site Location: 123 Metcalfe Street
Ottawa , Ontario

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- one (1) standby diesel generator set, having a rating of 150 kilowatts, to provide power for the hotel during emergency situations;

all in accordance with the Application for Approval (Air & Noise) dated June 28, 2005, and all supporting documentation and information, signed by Christopher Gillin, (Vice President), Gillin Engineering and Construction Ltd.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(5) "Ministry" means the Ontario Ministry of the Environment;

(6) "Owner" means Gillin Engineering and Construction Ltd., and includes its successors and assignees;

(7) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(8) "Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between

the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

OPERATION AND MAINTENANCE

4. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

CONTENT COPY OF ORIGINAL

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

Remedial Action and Mitigation

Remediated Soils

Estimate of quantities of soil, if any, originating and remaining on the RSC property that have been remediated, at a location either on or off the RSC property, to reduce the concentration of contaminants in the soil.

Soil Remediation Process	Estimated Quantity of Soil (in-situ cubic meters)
No Remediation Provided	

Removed Soils

Estimated quantity of soil or sediment, if any, removed from and not returned to the RSC property (in-situ cubic meters):
5735

Deposited Soils

Estimated quantity of soil or sediment, if any, being brought to and deposited at the RSC property not including any soil that has been remediated off the RSC property (identified in the Soil Remediation Process above) (in-situ cubic meters): 0

Remediated or Removed Soil From Near Property Boundary

Has any soil, sediment or ground water at the RSC property that is or was located within 3 meters of the RSC property boundary been remediated or removed for the purpose of remediation: NO

Ground Water Control or Treatment Measures

Ground Water Control or treatment measures that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

No groundwater control measures are required for the RSC.

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

No other activities are required to control or mitigate groundwater movement.

Other Activities Including Risk Management Measures

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that were required for the RSC property prior to the certification date for the purpose of filing the RSC:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No other activities are required to control or mitigate groundwater movement.

Other than the activities identified above, constructed works to control or otherwise mitigate release or movement of known existing contaminants that are required for the RSC property after the certification date:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No other activities are required to control or mitigate groundwater movement.

Monitoring or Maintenance

Soil monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

All soil has been removed from the site to the bedrock level. No soil monitoring is required at the subject site.

Ground Water monitoring requirements, or any requirements for care, maintenance, or replacement of any monitoring control works, for known existing contaminants, if any, on the RSC property, after the certification date:

All soil has been removed from the site to the bedrock level. There is no groundwater present above the bedrock surface. Groundwater in bedrock has concentrations of potential contaminants of concern that are less than the criteria listed in Table 3. No groundwater monitoring is required at the subject site.

Certifications

As the qualified person, and in relation to this Part of the RSC, I certify that:

1. A phase one environmental site assessment of the RSC property, which includes the evaluation of the information gathered from a records review, site visit and interviews, has been conducted in accordance with the Regulation by or under the supervision of a qualified person as required by the Regulation.

2. I have conducted or supervised a phase two environmental site assessment, which includes the evaluation of information gathered through the sampling and analysis of soil and other site investigation or assessment activities, of all or part of the

RSC property with respect to one or more contaminants, in accordance with the Regulation.

3. The information represents the site conditions at the sampling points at the time of sampling only and the conditions between and beyond the sampling points may vary.

4. As of 2004/10/26, in my opinion, based on the phase one environmental site assessment and the phase two environmental site assessment, and any confirmatory sampling, there is no evidence of any contaminants in the soil, ground water or sediment on, in or under the RSC property that would interfere with the type of property use to which the RSC property will be put, as specified in the RSC.

5. If non-potable ground water standards have been applied,

    a. I have given written notice of intention to apply non-potable ground water site condition standards to the clerk of the local municipality in which the property is located and the clerk of any upper-tier municipality in which the property is located.

    b. The owner of the property has informed me that either,

        i. the owner did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality or upper-tier municipality receiving the notice described in paragraph a, or

        ii. after receiving a notice of objection from the municipality, the municipality has withdrawn its objection and given written consent to the application of non-potable ground water standards.

    c. I did not receive a notice of objection from either the local municipality or the upper-tier municipality within 30 days of the municipality receiving the notice described in paragraph a, or, after I received a notice of objection from the municipality, the municipality gave written consent to the application of non-potable ground water standards.

6. As of 2004/10/26, in my opinion, based on the phase one and phase two environmental site assessments and any confirmatory sampling, the RSC property meets the applicable Full Depth site condition standards prescribed by section 37 of the Regulation for all contaminants prescribed by the Regulation in relation to the type of property use for which this RSC is filed, except for those contaminants (if any) specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards.

7. As of 2004/10/26, the maximum known concentration of each contaminant in soil, sediment and ground water at the RSC property for which sampling and analysis has been performed is specified in this RSC at Final RSC Property Profile.

8. In relation to any contaminant excepted from the certification mentioned above and as specified in this RSC at Part 2, Final RSC Property Profile - Risk Assessment Standards, or in relation to any other contaminant that in my opinion is likely to cause an adverse effect:

    a. A risk assessment was prepared for the contaminant with respect to the property for which the phase two environmental site assessment was conducted.

    b. The Director has accepted the risk assessment under clause 168.5 (1) (a) of the Act.

    c. As of 2004/10/26, the property for which the phase two environmental site assessment was conducted meets the standards specified in the risk assessment for the contaminant.

As the qualified person, and in relation to this Part of the RSC, I also certify that:

1. I am a qualified person and have the qualifications required by section 5 of the Regulation.

2. I have in place an insurance policy that satisfies the requirements of section 7 of the Regulation.

3. I acknowledge that the RSC will be filed in the Environmental Site Registry, that records of site condition that are filed in the Registry are available for examination by the public and that the Registry contains a notice advising users of the Registry who have dealings with any property to consider conducting their own due diligence with respect to the environmental condition of the property, in addition to reviewing information in the Registry.

4. The opinions expressed in this RSC are engineering or scientific opinions made in accordance with generally accepted principles and practices as recognized by members of the environmental engineering or science profession or discipline practising at the same time and in the same or similar location.

5. To the best of my knowledge, the certifications and statements in this part of the RSC are true as of 2004/10/26.

6. By signing this RSC, I make no express or implied warranties or guarantees.

I, the qualified person named below, on the date stated below, make all of the stated certifications applicable to the qualified person in this Part of the record of site condition.

CERTIFICATE OF APPROVAL
AIR
NUMBER 3839-7AGJMH
Issue Date: February 7, 2008

Morguard Corporation
350 Sparks St. Suite 402
Ottawa, Ontario
K1R 7S8

Site Location: 131 Queen Street
Ottawa, Ontario

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- two (2) natural gas fired boilers, two (2) natural gas fired humidifiers, and five (5) natural gas fired air handling units, having a maximum combined thermal input of 28,433,759 kilojoules per hour, and,

- one (1) standby diesel generator set, having a rating of 1750 kilowatts, to provide power for the facility during emergency situations;

all in accordance with the Application for Approval (Air & Noise) dated February 27, 2007 and signed by Ian McKie, Operations Manager, Ellis Don Corp., for Morguard Corporation, and all supporting information associated with the application including additional information provided by Jacques Whitford Limited dated January 18, 2008 and February 5, 2008.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Acoustic Report" means the noise study entitled "*Final Report , Acoustic Assessment , Ellis Don Corporation , Project No. 1006421*", prepared by Jacques Whitford Environmental Engineering Scientific Management Consultants, dated April 5, 2007.

(2) "Act" means the *Environmental Protection Act;*

(3) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(4) "Director" means any Ministry employee appointed by the Minister pursuant to Section 5 of the Act;

(5) "District Manager" means the District Manager, Ottawa District Office, Eastern Region of the Ministry;

(6) "Equipment" means the diesel generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(7) "Facility" means the entire operation where the Equipment is located;

(8) "Generator Set" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(9) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(10) "Ministry" means the Ontario Ministry of the Environment;

(11) "Noise Abatement Measures" means the noise control equipment detailed in Schedule A of this Certificate;

CONTENT COPY OF ORIGINAL

(12) "Owner" means Morguard Corporation, and includes its successors and assignees;

(13) "Publication NPC-103" means Publication NPC-103, Measurement Procedures, August 1978;

(14) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995; and

(15) "Publication NPC-233" means Publication NPC-233, Information To Be Submitted For Approval of Stationary Sources Of Sound, October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

OPERATION AND MAINTENANCE

3. The Owner shall restrict the periodic testing of the Generator Set to the daytime hours from 7:00 am to 7:00 pm.

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

ACOUSTIC AUDIT

5. The Owner shall:

(1) ensure that the noise emissions from the Facility comply with the limits set in Publication NPC-205; and

(2) incorporate the noise abatement measures detailed in Schedule A, of this Certificate.

CONTENT COPY OF ORIGINAL

6. The Owner shall carry out acoustic audit measurements on the actual noise emissions due to the operation of the Facility, in accordance with the measurement procedures in Publication NPC-103.

7. The Owner shall submit an acoustic audit report, in accordance with Publication NPC-233, to the District Manager and the Director not later than three (3) months after the date on his Certificate.

8. The Director may not accept the results of the acoustic audit if the requirements of Publication NPC-233 were not followed.

9. If the Director does not accept the results of the acoustic audit the Director may :
a) require the Owner to repeat the acoustic audit, and/or
b) revoke this certificate, or

c) in accordance with the Act, impose additional conditions to the Owner's Certificate of Approval.

10. If the acoustic audit report indicates that the Facility is not in compliance with the noise limits stated in Ministry Publication NPC-205 then the Owner shall submit a new application for a Certificate of Approval containing a Noise Abatement Action Plan.

The Noise Abatement Action Plan shall include a detailed timetable of scheduled mitigating measures, with the objective to ensure that the noise emissions from the Facility comply with limits in Publication NPC-205. The Noise Abatement Action Plan shall also be based upon the objective to complete the implementation of the required mitigating measures by a date not exceeding six (6) months after the date noted on this Certificate.

If applicable, the new application must be sent to the District Manager and the Director, by a date not exceeding four (4) months, after the date noted on this Certificate.

SCHEDULE “A”

Note : Acoustic Report means - the noise study entitled `*Final Report , Acoustic Assessment , Ellis Don Corporation , Project No. 1006421*, prepared by Jacques Whitford Environmental Engineering Scientific Management Consultants, dated April 5, 2007.

1. One (1) muffler for the diesel engine combustion exhaust, capable of providing the following values of Insertion-Loss in 1/1 octave frequency bands:

Centre Frequency (Hertz)	63	125	250	500	1000	2000	4000	8000
Insertion-Loss (decibel)	10	30	38	30	25	20	20	20

2. One (1) 3 metre high, 6 m long acoustic barrier, located 2m from the diesel engine exhaust louvre (S22) positioned as described in Section 4.0 of the Acoustic Report, continuous without holes, gaps and other penetrations, and having surface mass at least 20 kilograms per square metres.

3. One (1) 3 metre high, 7 m long acoustic barrier, located 1m from the diesel engine intake louvre (S23) positioned as described in Section 4.0 of the Acoustic Report, continuous without holes, gaps and other penetrations, and having surface mass at least 20 kilograms per square metres.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

3. Condition No. 3 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Generator Set.

CONTENT COPY OF ORIGINAL

4. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

5. Condition No. 5 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Facility.

6. Condition Nos. 6 and 7 are included to require the Owner to gather accurate information so that the environmental impact and subsequent compliance with the Act, the regulations and this Certificate can be verified.

7. Condition Nos. 8 and 9 are included to ensure that the acoustic audit is carried out in accordance with procedures set in the Ministry's Noise Guidelines.

8. Condition No. 10 is included to require the Owner to develop a Noise Abatement Action Plan (if necessary) designed to ensure that the noise emissions from the Facility are in compliance with applicable limits set in the Ministry's Noise Guidelines.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

NUMBER 1595-6NTRUM
Issue Date: April 19, 2006

WHWW Hotels (Ottawa) Company
5090 Explorer Drive, 7th Floor
Mississauga, Ontario
L4W 4T9

Site Location: Arc The Hotel
140 Slater Street
Ottawa City, Ontario

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- four (4) natural gas fired hot water boilers, one (1) natural gas fired hot water tank, one (1) natural gas fired air make up unit, having a maximum combined thermal input of 5.0 Gigajoules per hour, and,

- one (1) standby natural gas generator set, having a rating of 7.0 kilowatts, to provide power for the hotel during emergency situations,

all in accordance with the Application for Approval (Air & Noise) dated January 31, 2006, and all supporting documentation and information, signed by Kenny Gibson, (Assistant V.P.), WHWW Hotels (Ottawa) Company.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Equipment" means the natural gas generator set and combustion equipment described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(4) "Generator Set" means the diesel generator set described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(5) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(6) "Ministry" means the Ontario Ministry of the Environment; and

(7) "Owner" means WHWW Hotels (Ottawa) Company, and includes its successors and assignees.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the

CONTENT COPY OF ORIGINAL

Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

OPERATION AND MAINTENANCE

3. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

(11) "Publication NPC-233" means Ministry Publication NPC-233, Information to be Submitted for Approval of Stationary Sources of Sound", October 1995.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Approval, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Approval.

2. Where there is a conflict between a provision of any submitted document referred to in this Approval and the Conditions of this Approval, the Conditions in this Approval shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Approval or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment's suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

NOISE MITIGATION MEASURES

5. The Owner shall, not later than three (3) months after the date of this Approval or the date of commissioning of the Equipment, implement the Noise Mitigation Measures.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Approval. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Approval can be verified.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to the Noise Mitigation Measures specified in the Acoustic Assessment Report, to provide the minimum performance requirements considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, 1993 , S.O. 1993, c. 28 (Environmental Bill of Rights), the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:

1. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The environmental compliance approval number;
6. The date of the environmental compliance approval;
7. The name of the Director, and;
8. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act , R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

the establishment of stormwater management Works to serve a commercial development site located at 150 Elgin Street, in the City of Ottawa, for the disposal of stormwater runoff from a catchment area of 0.4 ha, to attenuate post-development peak flows to allowable release levels, discharging to the existing 900 mm diameter storm sewer located along Gloucester Street, for all storm events up to and including the 100-year return storm, consisting of the following:

rooftop storage provided on a 606 m 2 roof top terrace of a proposed building, having an available storage volume of 24.9 m 3 and a maximum ponding depth of 10.16 cm, discharging via two (2) control flow drains, together allowing a total maximum discharge of 3.05 L/s (100-year return storm) to an underground concrete storage tank;

underground storage provided in a 10.2 m long, 10.8 m wide and 1.7 m deep underground concrete storage tank located under the entrance off 150 Elgin Street, having an available storage volume of 114 m 3 , complete with a 250 mm diameter inlet storm sewer, a 200 mm diameter cleanout and a 0.6 m by 0.6 m overflow catchbasin, the tank discharging via an 85 mm diameter orifice plate allowing a maximum discharge of 16.8 L/s (100-year return storm), a 250 mm diameter outlet pipe complete with a backflow prevention valve, a storm monitoring manhole and a 250 mm diameter outlet pipe to the existing 900 mm diameter storm sewer located along Gloucester Street;

all in accordance with the application dated January 12, 2012 and received January 20, 2012, including the design reports entitled "Servicing Design and Stormwater Management Report Proposed Commercial Development by Morguard Investments Ltd. 150 Elgin Street, Ottawa, Ontario" dated April 25, 2011 and revised June 27, 201 and "Supplementary Stormwater Quality Report to Servicing Design and Stormwater Management Report Proposed Commercial Development by Morguard Investments Ltd. 150 Elgin Street, Ottawa, Ontario" dated July 5, 2011, final plans and specifications prepared by Urban Ecosystems Limited.

For the purpose of this environmental compliance approval, the following definitions apply:

1. "Approval" means this Environmental Compliance Approval and any Schedules to it, including the application and supporting documentation.

2. "Director" means any Ministry employee appointed by the Minister pursuant to section 5 of the Part II.1 of the Environmental Protection Act;

3. "District Manager" means the District Manager of the Ottawa District Office of the Ministry;

4. "Ministry" means the Ontario Ministry of the Environment;

5. "Owner" means Morguard Elgin Limited, and includes its successors and assignees;

6. "Works" means the sewage works described in the Owner's application, this Approval and in the supporting documentation referred to herein, to the extent approved by this Approval.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

1. GENERAL PROVISIONS

1.1 The Owner shall ensure that any person authorized to carry out work on or operate any aspect of the Works is notified of this Approval and the conditions herein and shall take all reasonable measures to ensure any such person complies with the same.

1.2 Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Works in accordance with the description given in this Approval, the application for approval of the Works and the submitted supporting documents and plans and specifications as listed in this Approval.

1.3 Where there is a conflict between a provision of any submitted document referred to in this Approval and the Conditions of this Approval, the Conditions in this Approval shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

1.4 Where there is a conflict between the listed submitted documents, and the application, the application shall take precedence unless it is clear that the purpose of the document was to amend the application.

1.5 The requirements of this Approval are severable. If any requirement of this Approval, or the application of any requirement of this Approval to any circumstance, is held invalid or unenforceable, the application of such requirement to other circumstances and the remainder of this Approval shall not be affected thereby.

2. EXPIRY OF APPROVAL

The approval issued by this Approval will cease to apply to those parts of the Works which have not been constructed within five (5) years of the date of this Approval.

3. CHANGE OF OWNER

The Owner shall notify the District Manager and the Director, in writing, of any of the following changes within thirty (30) days of the change occurring:

(a) change of Owner;

(b) change of address of the Owner;

(c) change of partners where the Owner is or at any time becomes a partnership, and a copy of the most recent declaration filed under the Business Names Act , R.S.O. 1990, c.B17 shall be included in the notification to the District Manager; and

(d) change of name of the corporation where the Owner is or at any time becomes a corporation, and a copy of the most current information filed under the Corporations Information Act , R.S.O. 1990, c. C39 shall be included in the notification to the District Manager.

4. OPERATION AND MAINTENANCE

4.1 The Owner shall make all necessary investigations, take all necessary steps and obtain all necessary approvals so as to ensure that the physical structure, siting and operations of the stormwater management Works do not constitute a safety or health hazard to the general public.

4.2 The Owner shall ensure that the design storage volumes are maintained at all times.

4.3 The Owner shall undertake an inspection of the condition of the stormwater management Works, at least once a year, and undertake any necessary cleaning and maintenance to ensure that sediment, debris and excessive decaying vegetation are removed from the above noted stormwater management Works to prevent the excessive build-up of sediment, debris and/or decaying vegetation to avoid reduction of capacity of the Works. The Owner shall also regularly inspect and clean out the inlet to and outlet from the Works to ensure that these are not obstructed.

4.4 The Owner shall maintain a logbook to record the results of these inspections and any cleaning and maintenance operations undertaken, and shall keep the logbook at the Owner's corporate office for inspection by the Ministry. The logbook shall include the following:

(a) the name of the Works; and

(b) the date and results of each inspection, maintenance and cleaning, including an estimate of the quantity of any materials removed and method of clean-out of the stormwater management Works.

5. RECORD KEEPING

The Owner shall retain for a minimum of five (5) years from the date of their creation, all records and information related to or resulting from the operation and maintenance activities required by this Approval.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition 1 is imposed to ensure that the Works are built and operated in the manner in which they were described for review and upon which Approval was granted. This Condition is also included to emphasize the precedence of Conditions in the Approval and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review. The Condition also advises the Owners their responsibility to notify any person they authorized to carry out work pursuant to this Approval of the existence of this Approval.

2. Condition 2 is included to ensure that, when the Works are constructed, the Works will meet the standards that apply at the time of construction to ensure the ongoing protection of the environment.

3. Condition 3 is included to ensure that the Ministry records are kept accurate and current with respect to approved Works and to ensure that subsequent owners of the Works are made aware of the Approval and continue to operate the Works in compliance with it.

4. Condition 4 is included as regular inspection and necessary removal of sediment and excessive decaying vegetation from this approved stormwater management Works are required to mitigate the impact of sediment, debris and/or decaying vegetation on the treatment capacity of the Works. It is also required to ensure that adequate storage is maintained in the stormwater management facilities at all times as required by the design. Furthermore, Condition 4 is included to ensure that the stormwater management Works are operated and maintained to function as designed.

5. Condition 5 is included to require that all records are retained for a sufficient time period to adequately evaluate the long-term operation and maintenance of the Works.

In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:

1. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The environmental compliance approval number;
6. The date of the environmental compliance approval;
7. The name of the Director, and;
8. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

CONTENT COPY OF ORIGINAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205 or NPC-232, as applicable.

OPERATION AND MAINTENANCE

4. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Generator Set and Cooling Tower comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition No. 4 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

This Certificate of Approval revokes and replaces Certificate(s) of Approval No. 5570-67XKUY issued on April 21, 2005

(7) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Company shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Company shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

5. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 4 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

4. Condition No. 5 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Company is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- one (1) standby diesel generator set, having a rating of 455 kilowatts, to provide power during emergency situations, exhausting to the atmosphere at a maximum volumetric flow of 1.75 actual cubic metre per second at an approximate temperature of 520 degrees Celsius, through a stack having an exit diameter of 0.4 metre, extending 1.22 metres above the local roof and 11.0 metres above grade;

all in accordance with the Application for a Certificate of Approval (Air) dated May 6, 2002 and signed by Randy Taylor, Manager, Finance & Administration, Financial Transactions and Reports Analysis Centre of Canada, and all supporting information associated with the application including additional information dated October 16, 2002 and signed by Nell van Walsum, M.Sc., Senior Environment Consultant, Water and Earth Science Associates Ltd., on behalf of Financial Transactions and Reports Analysis Centre of Canada

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(i) "Act" means the *Environmental Protection Act;*

(ii) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(iii) "Equipment" means the diesel generator set described in the Company's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(iv) “Manual” means a document or a set of documents that provide written instructions to staff of the Owner;

(v) "Ministry" means the Ontario Ministry of the Environment

(vi) "Owner" means Her Majesty the Queen - in Right of Canada as represented by Financial Transactions and Reports Analysis Centre of Canada;

(vii) “Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

PERFORMANCE

1. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

2. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

3. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition No. 1 is included to ensure that the nitrogen oxides emissions will not result in an adverse effect at a sensitive receptor.

2. Condition No. 2 is included to ensure that the proposed operation, excluding emergency situations, is not extended beyond specific daytime hours to prevent an adverse effect resulting from the operation of the Equipment.

3. Condition No. 3 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Tempest 240 Sparks Corp.
4400-1125 Colonel By Drive
Ottawa, Ontario
K1S 5R1

Site Location: C.D. Howe Building
235 Queen Street
Ottawa City,

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- two (2) standby diesel generator sets each having a rating of 500 kilowatts, and one (1) standby diesel generator set having a rating of 750 kilowatts, all providing power for the office building during emergency situations;

all in accordance with the Application for Approval (Air) dated October 30, 2002, and all supporting documentation and information, submitted by Jacques Whitford Environment Limited on behalf of Tempest Management Corp. signed by Kristian Smith.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(1) "Act" means the *Environmental Protection Act;*

(2) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(3) "Works" means the emergency diesel generator sets described in the owner's application, this Certificate and in the supporting documentation referred to herein, to the extent approved by this Certificate;

(4) "Owner" means the Tempest 240 Sparks Corp., and includes its successors and assignees;

(5) "Works" means the diesel generator sets described in the Owner's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(6) "Manual" means a document or a set of documents that provide written instructions to staff of the Owner;

(7) "Ministry" means Ministry of Environment; and,

(8) "Publication NPC-205" means Ministry Publication NPC-205, Sound Level Limits for Stationary Sources in Class 1 & 2 Areas (Urban), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

PERFORMANCE

2. The Owner shall ensure that the noise emissions from the works comply with the limits set out in Publication NPC-205.

CONTENT COPY OF ORIGINAL

3. The Company shall ensure that:

(1) no other standby generator sets, located at 235 Queen Street Ottawa City, Ontario,

are operational during the periodic testing of the Equipment;

(2) only one (1) of the three (3) standby diesel generator sets approved under this Certificate is periodically tested at any one time; and,
(3) close fresh air intake louvers located on the C.D. Howe Building east of 750 kilowatts standby diesel generator exhaust system shall be closed whenever periodic testing is carried out.

4. The Owner shall restrict the periodic testing of the works to the hours from 7:00 pm to 11:00 pm.

OPERATION AND MAINTENANCE

5. The Owner shall ensure that the works are properly operated and maintained at all times. The Owner shall:

(1) prepare, before commencement of operation of the works, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the works, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the works suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the works;

(8) “Publication NPC-232" means Ministry Publication NPC-232, Sound Level Limits for Stationary Sources in Class 3 Areas (Rural), October, 1995.

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

GENERAL

1. Except as otherwise provided by these Conditions, the Owner shall design, build, install, operate and maintain the Equipment in accordance with the description given in this Certificate, application for approval of the Equipment and the submitted supporting documents and plans and specifications as listed in this Certificate.

2. Where there is a conflict between a provision of any submitted document referred to in this Certificate and the Conditions of this Certificate, the Conditions in this Certificate shall take precedence, and where there is a conflict between the listed submitted documents, the document bearing the most recent date shall prevail.

PERFORMANCE

3. The Owner shall ensure that the noise emissions from the Equipment comply with the limits set out in Publication NPC-205.

OPERATION AND MAINTENANCE

4. The Owner shall ensure that:

(1) no other standby generator sets, located at 255 Albert Street, Ottawa, Ontario, are operational during the periodic testing of the Equipment; and,

(2) only one (1) of the two (2) standby diesel generator sets can be periodically tested at any one time.

5. The Owner shall restrict the periodic testing of the Equipment to the daytime hours from 7:00 am to 7:00 pm.

6. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

5. The Owner shall carry out the periodic testing of the Generator Set at a reduced load of 30% or less.

6. The Owner shall ensure that the Equipment is properly operated and maintained at all times. The Owner shall:

(1) prepare, not later than three (3) months after the date of this Certificate or the date of commissioning of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

(d) all appropriate measures to minimize noise and odorous emissions from all potential sources;

(2) implement the recommendations of the Manual; and

(3) retain, for a minimum of two (2) years from the date of their creation, all records on the maintenance, repair and inspection of the Equipment, and make these records available for review by staff of the Ministry upon request.

The reasons for the imposition of these terms and conditions are as follows:

1. Condition Nos. 1 and 2 are imposed to ensure that the Equipment is built and operated in the manner in which it was described for review and upon which approval was granted. These conditions are also included to emphasize the precedence of Conditions in the Certificate and the practice that the Approval is based on the most current document, if several conflicting documents are submitted for review.

2. Condition No. 3 is included to provide the minimum performance requirement considered necessary to prevent an adverse effect resulting from the operation of the Generator Set.

3. Condition Nos. 4 and 5 are included to ensure that the nitrogen oxide emissions will not result in an adverse effect at a sensitive receptor.

4. Condition No. 6 is included to emphasize that the Equipment must be maintained and operated according to a procedure that will result in compliance with the Act, the regulations and this Certificate. In addition the Owner is required to keep records and provide information to staff of the Ministry so that compliance with the Act, the regulations and this Certificate can be verified.

In accordance with Section 139 of the Environmental Protection Act, R.S.O. 1990, Chapter E-19, as amended, you may by written Notice served upon me, the Environmental Review Tribunal and in accordance with Section 47 of the Environmental Bill of Rights, S.O. 1993, Chapter 28, the Environmental Commissioner, within 15 days after receipt of this Notice, require a hearing by the Tribunal. The Environmental Commissioner will place notice of your appeal on the Environmental Registry. Section 142 of the Environmental Protection Act, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

You have applied in accordance with Section 9 of the Environmental Protection Act for approval of:

- one (1) standby diesel generator set, having a rating of 400 kilowatts, to provide power during emergency situations, exhausting to the atmosphere at a maximum volumetric flow rate of 1.61 actual cubic metres per second at an approximate temperature of 573 degrees Celsius, through a stack having an exit diameter of 0.152 metre, extending 12.1 metres above grade;

all in accordance with the Application for a Certificate of Approval (Air), and all supporting information signed by David Bordignon, MBA, M.Eng., P.Eng., and dated April 3, 2000, as well as additional information provided by Briggs Canada Limited on behalf of GT Group Telecom Services Corp., signed by David Bordignon, and dated May 23, 2000 and May 26, 2000.

For the purpose of this Certificate of Approval and the terms and conditions specified below, the following definitions apply:

(i) "Act" means the *Environmental Protection Act;*

(ii) "Certificate" means this Certificate of Approval issued in accordance with Section 9 of the Act;

(iii) "Company" means GT Group Telecom Services Corp.;

(iv) "Equipment" means the diesel generator set described in the Company's application, this Certificate and in the supporting documentation submitted with the application, to the extent approved by this Certificate;

(v) “Manual” means a document or a set of documents that provide written instructions to staff of the Company;

(vi) "Ministry" means the Ontario Ministry of the Environment;

You are hereby notified that this approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

OPERATION AND MAINTENANCE

1. The Company shall carry out periodic testing of the Equipment at a reduced load of 30%.

2. The Company shall ensure that the Equipment is properly operated and maintained at all times. The Company shall:

(1) prepare, before commencement of operation of the Equipment, and update, as necessary, a Manual outlining the operating procedures and a maintenance program for the Equipment, including:

(a) routine operating and maintenance procedures in accordance with good engineering practices and as recommended by the Equipment suppliers;

(b) emergency procedures;

(c) procedures for any record keeping activities relating to operation and maintenance of the Equipment;

In accordance with Section 100 of the Ontario Water Resources Act, R.S.O. 1990, Chapter 0.40, as amended, you may by written notice served upon me and the Environmental Appeal Board within 15 days after receipt of this Notice, require a hearing by the Board. Section 101 of the Ontario Water Resources Act, R.S.O. 1990, Chapter 0.40, provides that the Notice requiring the hearing shall state:

1. The portions of the approval or each term or condition in the approval in respect of which the hearing is required, and;
2. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

3. The name of the appellant;
4. The address of the appellant;
5. The Certificate of Approval number;
6. The date of the Certificate of Approval;
7. The name of the Director;
8. The municipality within which the works are located;

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

PCA and APEC Tables

Table A: Potentially Contaminating Activities

Address Direction and Distance from Site	Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04	Description	Date(s)	Results in an APEC (yes/no)
77 Metcalfe Street Site	**PCA #30** – Importation of Fill Material of Unknown Quality	A geotechnical report by others identified fill material present beneath the Site to depths between 0.43 and 0.86 m below ground surface (bgs).	1950s	Yes – APEC 1
	PCA #37 – Operation of Dry Cleaning Equipment (where chemicals are used)	Historical presence of a dry cleaner located within the northeast portion of the Site.	1912 – 1922	Yes – APEC 2A
		Historical presence of a dry cleaner located within the west central portion of the Site.		Yes – APEC 2B
		Historical presence of Paragon Cleaners, a dry cleaner located within the second level of the basement. Registered on HWIN.	1986 – 1998	Yes – APEC 2C
	PCA #28 – Gasoline and Associated Products Storage in Fixed Tanks	Historical use of the Site of Beamish Service Station as a gasoline service station. Two USTs were identified within the northwestern portion of the Site.	1931 – 1950	Yes – APEC 3A
		Current and historical use of a 1,025 L diesel AST associated with a diesel backup generator located within the roof of the building. A NPRI and COA identified exhaust system.	~2004 – Present	Yes – APEC 3B
		FIPs identified historical presence of two oil fired boilers located within the western portion of the Site.	1955	Yes – APEC 3C
	PCA #55 – Transformer Manufacturing, Processing and Use	Current and historical presence of a transformer vault on-Site. Previous reports by others identified wet PCBs.	<2024 – Present	Yes – APEC 4

Address Direction and Distance from Site	Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04	Description	Date(s)	Results in an APEC (yes/no)
	PCA #10 – Commercial Autobody Shop	Historical use of the Site as commercial auto garage, located within the southern portion of the Site.	1922 – 1950	Yes – APEC 5
75 Slater Street Southeast adjacent (Historically 85 - 87 Slater Street)	**PCA Other 1** – Known Contamination	A RSC identified metal contamination within soil, identified within the native material. Registered on HWIN.	2022	Yes – APEC 6
	PCA #10 – Commercial Autobody Shops	The 1955 FIP identified Meyers Motors Ltd. The 1948 and 1963 FIP identified Paint shop and Repair shop of volcanizing and battery servicing with two 1000-gallon ASTs and one 500-gallon UST.	1948 – 1963	
	PCA #6 – Battery Manufacturing, Recycling and Bulk Storage			
	PCA #28 – Gasoline and Associated Products Storage in Fixed Tanks			
116 Albert Street (~20 m west)	**PCA #31** – Ink Manufacturing, Processing and Bulk Storage	Street directories identified Metro Ottawa as a newspaper publisher	2006 – 2007	Yes – APEC 7
	PCA #34 – Metal Fabrication	Street directories identified Machinery & Equipment Manufacturers Assn of Canada. Registered on HWIN.	1971 – 2000	
	PCA #10 – Commercial Autobody Shops	Street directories identified Elgin Motors as a used car dealership.	1950	
119 Slater Street (Historically 121 Slater Street) (~45 m west)	**PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used)	Street directories identified Paragon Cleaners and Brookshire Cleaners (1970) Ltd.	1971 – 1981	Yes – APEC 8

Address Direction and Distance from Site	Potentially Contaminating Activity Refer to Table 2, Schedule D O.Reg. 153/04	Description	Date(s)	Results in an APEC (yes/no)
88 Albert Street (East adjacent)	**PCA #55 –** Transformer Manufacturing, Processing and Use	Historical use of the property for Ottawa Hydro Slater Substation. Registered on HWIN.	1986 – 2001	No – Due to the down gradient location with respect to groundwater flow direction relative to the Site, and records of non-PCB transformers on-Site.
55 Metcalfe Street (Historically 51 – 53 Metcalfe, 63 Metcalfe Street, 133 Queen Street) (~30 m north)	**PCA #34** – Metal Fabrication	Street directories identified Vard Machine for welding and machine shops.	2021	No – Due to the trans gradient location with respect to groundwater flow direction relative to the Site.
	PCA #31 – Ink, Manufacturing, Processing and Bulk Storage	Street directories identified the Toronto Star publishers and Ottawa Despatch & Agency Co, Ottawa Magazine Service, Globe Envelope Co.	1941 – 1955	
	PCA #37 – Operation of Dry Cleaning Equipment (where chemicals are used)	The 1955 FIP shows Cleaning & Pressing.	1941 – 1955	
		Street directories identified Modern Building Cleaning Service of Canada Ltd, and Carravatta Bros Cleaners.	1960

AST – Aboveground Storage Tank

Table B: Areas of Potential Environmental Concern (APEC)

APEC No.	Description of APEC/ Rationale	Location of APEC on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
1	A geotechnical report by others identified fill material present beneath the Site to depths between 0.43 and 0.86 m below ground surface (bgs).	Entire Site	**PCA #30** – Importation of Fill Material of Unknown Quality	On-Site	Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs, PAHs	Soil
2A	Historical presence of a dry cleaner located within the northeast portion of the Site in 1912 – 1922.	Northeast portion of the Site	**PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used)		Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs	Groundwater
2B	Historical presence of a dry cleaner located within the west central portion of the Site in 1922.	Western portion of the Site			Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs, PAHs	Soil Groundwater
2C	Historical presence of Paragon Cleaners, a dry cleaner located within the	Entire Site			Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC,	Soil Groundwater

APEC No.	Description of APEC/ Rationale	Location of APEC on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
	second level of the basement in 1986 – 1998.				SAR, PHCs F1 to F4, BTEX, VOCs	
3A	Historical use of the Site of Beamish Service Station as a gasoline service station. Two USTs with unknown volumes were identified within the northwestern portion of the Site in 1931 – 1950.	Northwest portion of the Site	**PCA #28** – Gasoline and Associated Products Storage in Fixed Tanks	On-Site	Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs	Soil Groundwater
3B	Current and historical use of a 1,025 L diesel AST associated with a diesel backup generator located within the roof of the building.	Northeast portion of the Site			PHCs F1 to F4, BTEX, PAHs	Soil Groundwater
3C	Historical presence of two oil fired boilers located within the western portion of the Site in 1955.	Western portion of the Site			PHCs F1 to F4, BTEX, VOCs, PAHs, PCBs	Soil Groundwater

APEC No.	Description of APEC/ Rationale	Location of APEC on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
4	Current and historical presence of a transformer vault on-Site, located within the central portion of the Site.	Central portion of the Site	**PCA #55** – Transformer Manufacturing, Processing and Use	On-Site	PHCs F1 to F4, BTEX, PCBs	Soil
5	Historical use of the Site as commercial auto garage, located within the southern portion of the Site from 1922 – 1950.	Southern portion of the Site	**PCA #10** – Commercial Autobody Shop		Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs	Soil Groundwater
6	Historical use of 75 Slater Street (southeast adjacent) as an autobody shop, battery servicing with gasoline tanks (1948 – 1963), and a publisher (1997 – 2012). Known contamination was identified within an RSC completed in 2022.	Southeastern portion of the Site	**PCA Other 1** – Known Contamination	Off-Site	Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs, PAHs	Groundwater
			PCA #10 – Commercial Autobody Shops			
			PCA #6 – Battery Manufacturing, Recycling and Bulk Storage			

APEC No.	Description of APEC/ Rationale	Location of APEC on Phase One Property	Potentially Contaminating Activity	Location of PCA (on-Site or off-Site)	Contaminants of Potential Concern	Media Potentially Impacted (Groundwater, soil and/or sediment)
			PCA #28 – Gasoline and Associated Products Storage in Fixed Tanks			
7	Historical use of the property 116 Albert Street (~20 m west) as used car dealership (1950), and a newspaper publisher (2006-2007), a machinery shop (1971 – 2000).	Western portion of Site	**PCA #31** – Ink Manufacturing, Processing and Bulk Storage **PCA #34** – Metal Fabrication **PCA #10** – Commercial Autobody Shops	Off-Site	Metals, including As, Se and Sb, B-HWS, CN, Cr(VI), Hg, EC, SAR, PHCs F1 to F4, BTEX, VOCs	Groundwater
8	Historical use of the property 119 Slater Street (~45 m west) as a dry cleaner from 1971 – 1981.	Southwestern portion of Site	**PCA #37** – Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site	VOCs	Groundwater

Notes: PHCs F1-F4 – Petroleum Hydrocarbon PAHs – Polycyclic Aromatic Hydrocarbons VOCs – Volatile Organic Compounds
BTEX – Benzene, Toluene, Ethylbenzene, Xylenes PCBs – Polychlorinated Biphenyls
