PROPERTY DESCRIPTION & ZONING

MUNICIPAL ADDRESS	4611 14 ST NW, CALGARY, AB
LEGAL DESCRIPTION	PLAN 1011446; BLOCK 1; LOT 3
LAND USE	S-R (SPECIAL PURPOSE - RECREATION)

SITE ANALYSIS

PARCEL AREA	±9.55 ACRES / ±3.87 HA
SITE AREA	38, 639.975 m ²
GROSS FLOOR AREA F.A.R.	35,179.00 m ² G.F.A. / SITE 35,179m ² /38,700 m ² 0.91
BUILDING FOOTPRINT	16,288.13 m ²
NEW FLOOR AREA GROUND LEVEL SECOND LEVEL TOTAL	863.3 m ² 698.3 m ² 1097.7 m ²
SITE COVERAGE	42%
BUILDING SETBACK	FRONT 3.0 m SIDE 3.0 m REAR 3.0 m

VEHICLE PARKING

GROUP B (INDOOR RECREATION FACILITY) USE REQUIREMENT 4.0 STALLS PER 100 SQM. OF GROSS USABLE FLOOR AREA.

REQUIRED VEHICLE PARKING	35,179.004 SQM / 100.0 SQM = 351.79 x 4.0 STALLS = 1408 STALLS
--------------------------	--

EXISTING PARKING STALLS	462 STALLS
EXISTING BARRIER FREE STALLS	11 STALLS

TOTAL PROPOSED PARKING	472 STALLS
PROPOSED NEW BARRIER FREE	11 STALLS
NEW STALLS NET GAIN	+10 STALLS

REQUIRED LOADING STALL	4.0
EXISTING LOADING STALLS	1.0
PROPOSED LOADING STALLS	2.0

A relaxation of this parking stall requirement and loading stall requirement is sought for Calgary Winter Club.

BICYCLE PARKING

GROUP B (INDOOR RECREATION FACILITY) DOES NOT REQUIRE CLASS 1 BICYCLE PARKING STALLS. FOR CLASS 2 INDOOR RECREATIONAL FACILITY REQUIRES 0.5 BICYCLE PARKING STALLS PER 100.0 SQM OF GROSS USABLE FLOOR AREA.

= 35,179.004 SQM / 100.0 SQM
= 351.79 x 0.5 STALLS
= 176 CLASS 2 BICYCLE STALLS

EXISTING STALLS	12
PROPOSED STALLS	24

A relaxation for class 2 bicycle parking is also sought in the development permit for the Calgary Winter Club.

Utility & Linetype Legend

symbol	description
---	property line
---	setback line
---	existing fence to remain
---	existing fence to be removed
---	public parking boundary
---	limit of disturbance

General Notes

- site plan prepared using information provided by GGA Architecture received March 3rd, 2026
- contractor is responsible for locating utilities and protecting same from damage during construction, contact utility safety partners call at 1-800-242-3447, commencement of work indicates completion of utility locates.
- all drawings are property of landscape architect, site clean-up is incidental to the work, the contractor shall report any discrepancies between the site conditions shown and to those existing at the time of construction to the owner's representative.
- if discrepancies exist between drawings, the largest scale shall be taken as correct, final interpretation belongs to the landscape architect.
- contractor to coordinate and attend all inspections and approvals required by the owner.
- all drawings are metric unless otherwise noted.
- all layout shall be approved on site by landscape architect prior to construction, contractor to notify owner's representative minimum 72 hours prior.
- contractor shall refer to related disciplines as indicated on plan's where applicable.
- all soft landscape areas are to be sloped to ensure positive drainage away from structures, u/n.o.
- all grades provided all to finished grade, top of hard surfaces.
- disturbance outside limit of construction line to be repaired to the satisfaction of the owner's representative.

Legend

symbol	description
---	concrete -refer to arch
---	existing vegetation to be retained
---	existing vegetation to be removed
---	existing tree to be retained
---	existing tree to be removed

Tree Protection Notes

- contractor to verify limits of disturbance and reconcile field conditions with drawings and schedules if discrepancies exist.
- the contractor shall report any discrepancies between site conditions illustrated to those existing at the time of construction to the owner's representative.
- contractor is responsible for locating utilities and protecting same from damage during construction, Contact Alberta Utility Safety Partners at 1.800.242.3447 prior to installation of tree protection fencing.
- tree protection fencing is to be installed 4m away from tree trunk, where space is available a minimum of 1.2m height a bright, contrasting colour and durable.
- area within tree protection fencing with proposed construction is to be approached with caution - consult owner's representative prior to construction.
- fencing must not interfere with access to fire hydrants, intersections or traffic signage.
- tree protection fencing must be implemented and maintained for the duration of the project.
- contractor to ensure signage indicating the protected tree status provided by the City of Calgary is attached to each protective fence.
- contractor to conduct pre- and post-construction tree care measures including watering, mulch and soil aeration to ensure existing trees don't die from soil disturbance
- those trees within any disturbance shall be watered biweekly throughout the active growing season.
- contractor to use anti-compaction devices to minimize root damage when working in close proximity to protective barriers.
- typical practice for construction methods and equipment will be used on City of Calgary lands to stub and decommission existing park irrigation from the project area and make adjustments to the boulevard to accommodate parking lot access.
- the limit of disturbance illustrated includes all proposed land disturbances, excavation zones, trenching and grade changes.
- no changes to existing street lighting, fire hydrants or utility boxes are proposed.
- if canopy clearance or root pruning is necessary, Urban Forestry shall be given a minimum two days notice through 311. An approved tree contractor shall complete the work at the contractor's expense.
- open cut excavation to be used on public land.
- contact information for the Contractor responsible for ensuring work adheres to the approved Tree Protection Plan will be provided upon project award. Prior to construction, the following individual may be contacted for inquiries:

Jonathan Sagi, LA, ground3 inc. landscape architects
jonathan.s@groundcubed.com

Landscape Area Calculations

tree requirements for this development are based on part 9 special purpose districts, division 5 - Recreation (S-R) district of bylaw IP2007, City of Calgary

requirement summary

- when a setback area shares a property line with a lane or parcel designated as a commercial, industrial or special purpose district, the setback must provide a minimum of 1 tree and 2 shrubs for every 45m²
- must provide 1 tree and 2 shrubs per parking island
- 25% of trees must be coniferous

total setback area	= 429m ²
total number of planting required for setback	= 9.5 trees, 19 shrubs
total number of parking islands	= 20
total number of required planting for parking islands	= 20 trees, 40 shrubs
total trees required	= 29.5
total shrubs required	= 59
total trees provided	= 36
total shrubs provided	= 63
