LANDSCAPING NOTE:

- All soft surface landscaping provided with low water irrigation system
- All sodded areas are planted with a drought tolerant grass species.
- A minimum depth of 300mm topsoil for all sodded areas and 600mm for shrub and tree beds.
- City boulevard between property line and back of walk to be grass.
- An Urban Forestry (UF) Technician must be onsite to mitigate possible root damage to adjacent Public trees during deep service excavation and walkway installation. Contact Urban Forestry via 311 to make arrangements for onsite meeting. Urban Forestry requires minimum two business days' notice prior to meeting onsite.
- The dwelling units will be solar ready and able to accommodate solar photovoltaic panels for electricity eneration.
- Rough in EV chargers in the garage.

Bike-Shell™ Model 301

NEW design, one piece FRP Composite bike locker
NO ASSEMBLY required

Lockers are pictured with Part No. 074 - Perforated Steel Safety View Windows

All lockers are shipped assembled and can be stand alone or grouped - NO COMMON WALLS. Lockers easily relocated.

Specify the 300 Series lockers for the highest customer satisfaction from the no-assembly ready-to-use delivery through years of trouble free operation.

Architects, designers and government agencies specify the 300 Series due to the high quality manufacturing which means virtually no installation costs!

- The 300 Series is the first one piece locker available that is not molded of soft and flammable HDPE plastic material.
- The construction of fiberglass reinforced plastic is highly resistant to impact, stains and will not corrode.
- Designed after our very popular 350 Series lockers and available in 6 styles providing flexibility for site locations.
