FLOOR PLAN

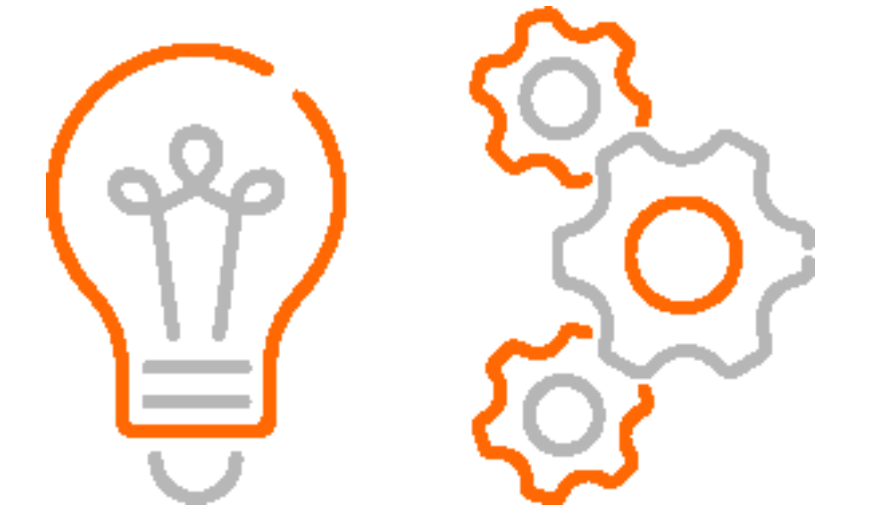

Existing

Main Floor Exterior Area 26498.33 sq ft
Interior Area 25977.86 sq ft

FLOOR PLAN

2080 Walkley Rd.

WALKLEY RD

Proposed

Surgical Space ~ 23,000 sq.ft
Clinic Space ~3000 sqft.

TOTAL: 26,300 sq.ft

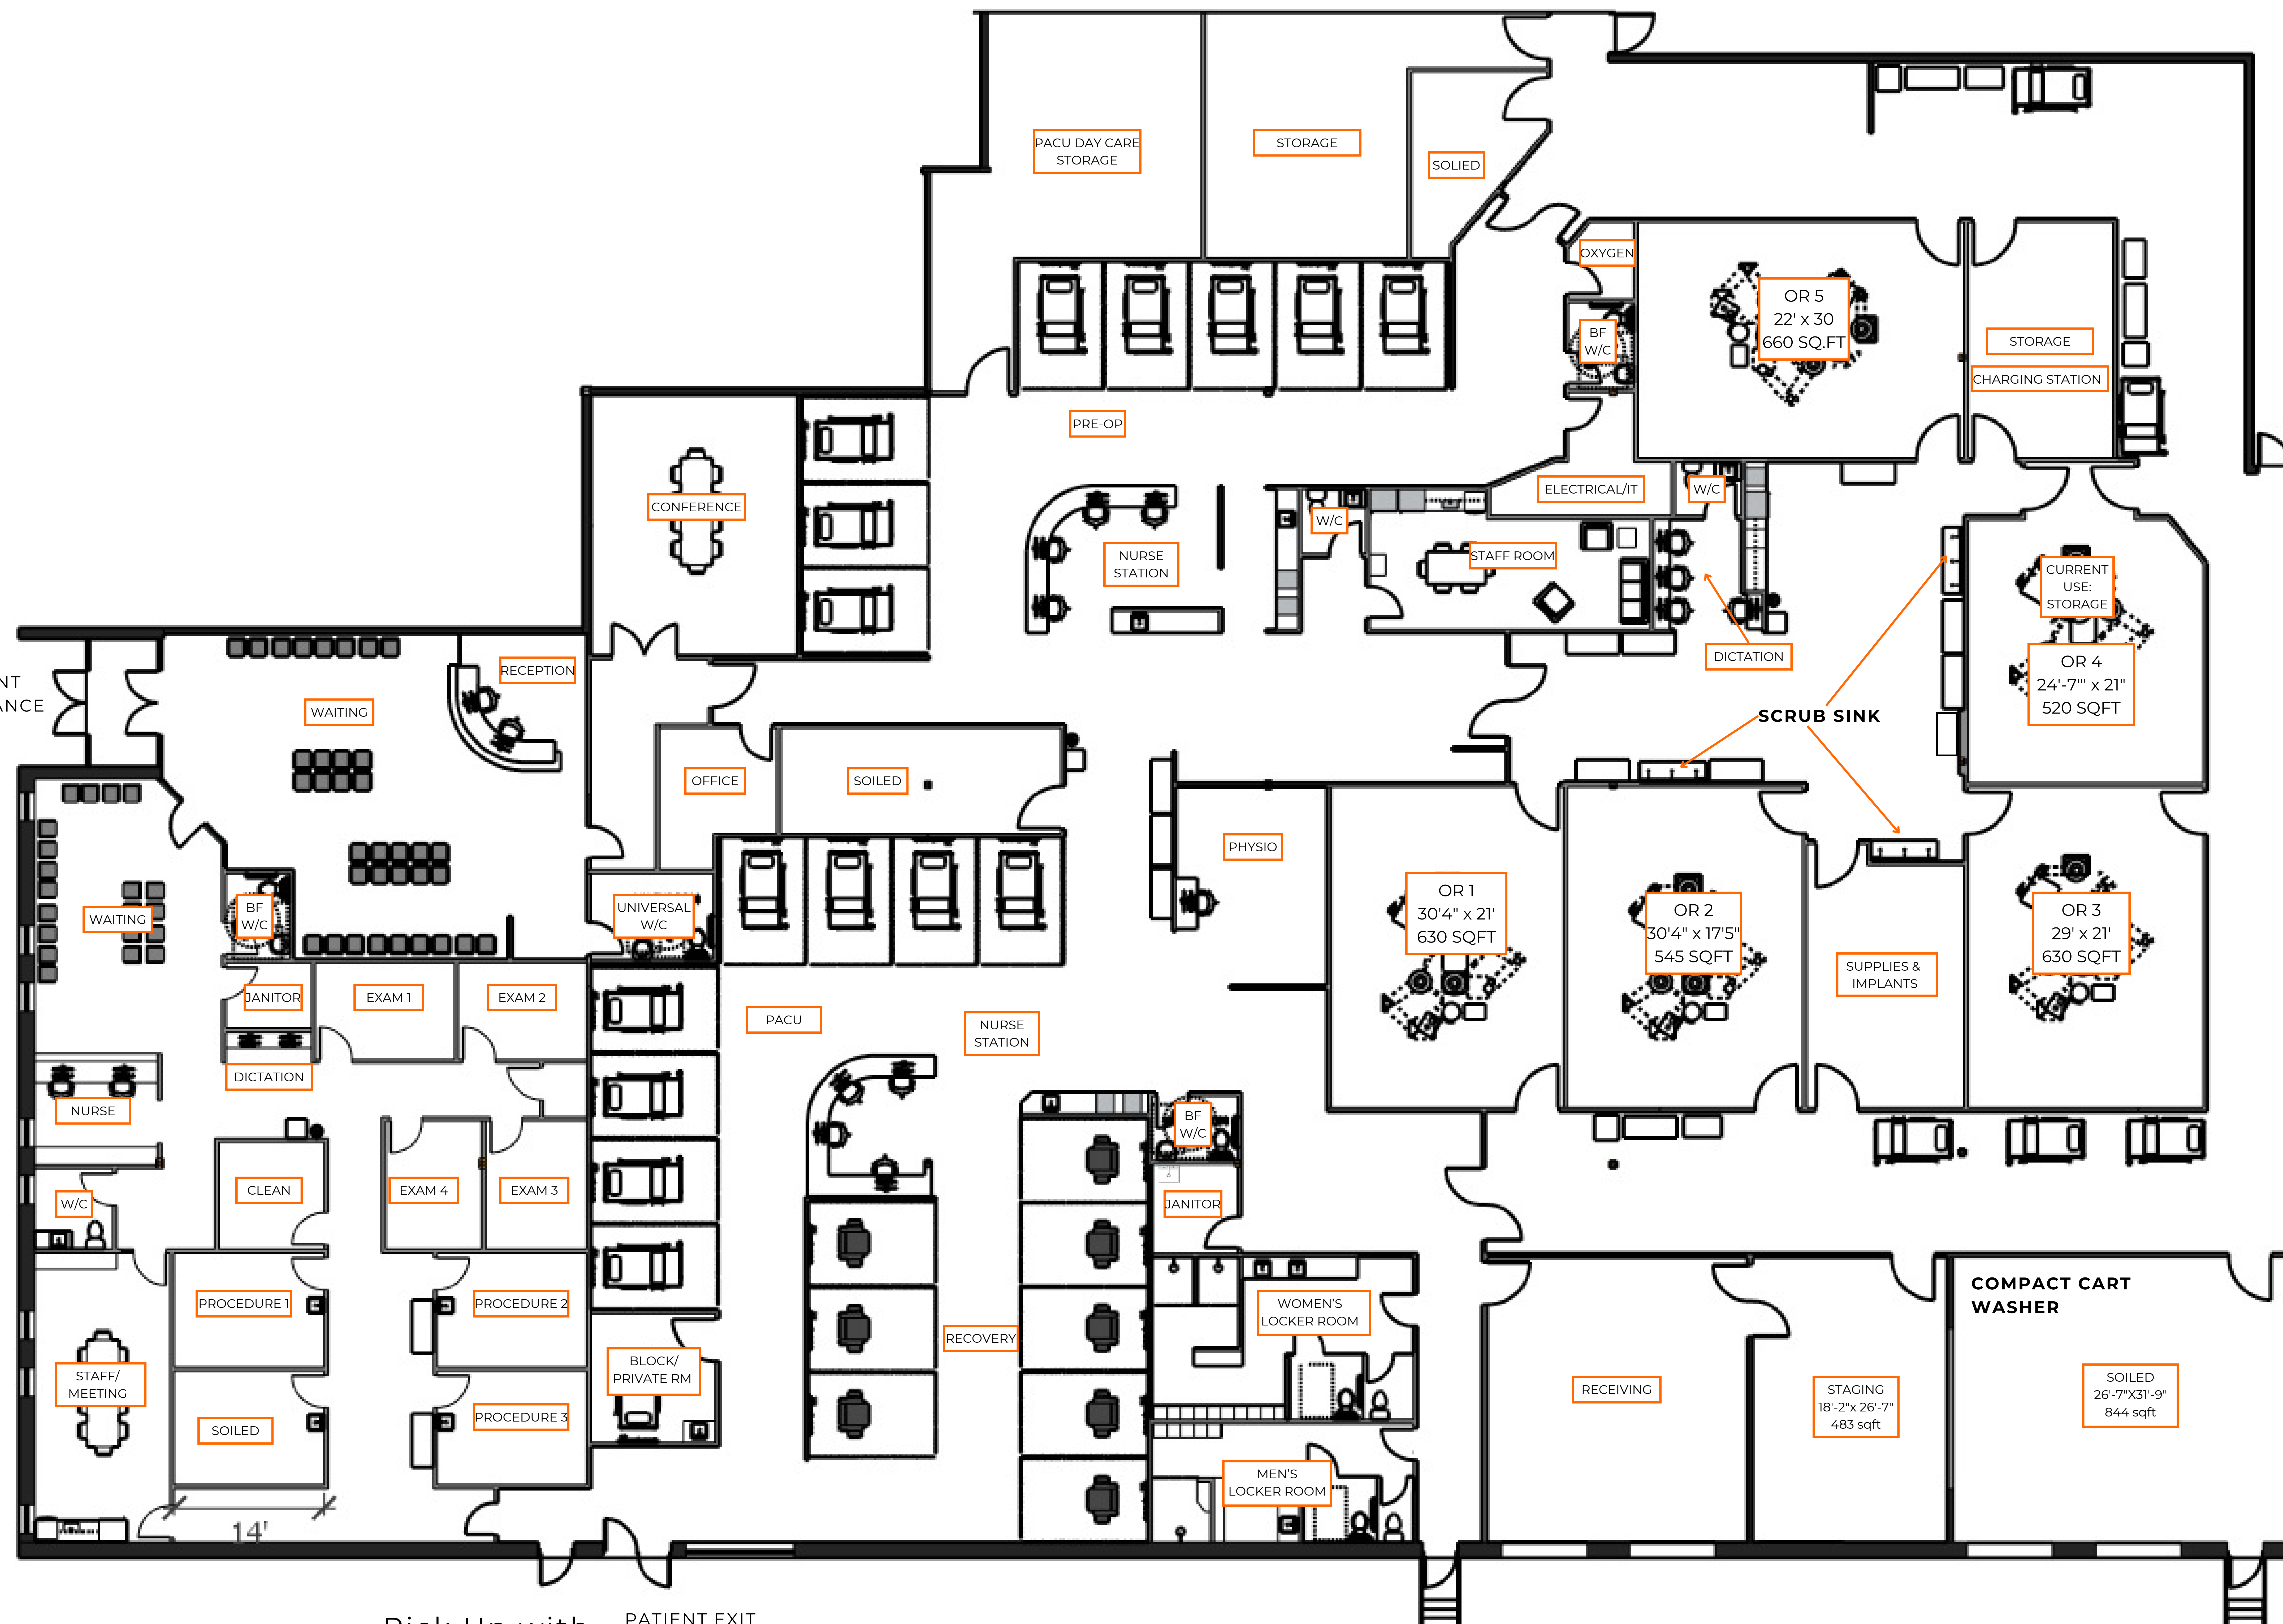

NOTES:

- Prioritize natural light in Reception/Waiting rooms; Recovery/Discharge (look into skylight options)
- Patient Drop off circle at front with canopy
- Patient pickup area at exit with canopy
- Hooks in staff changerooms for coats
- Self registration kiosks a consideration
- Patient lockers?

ORs

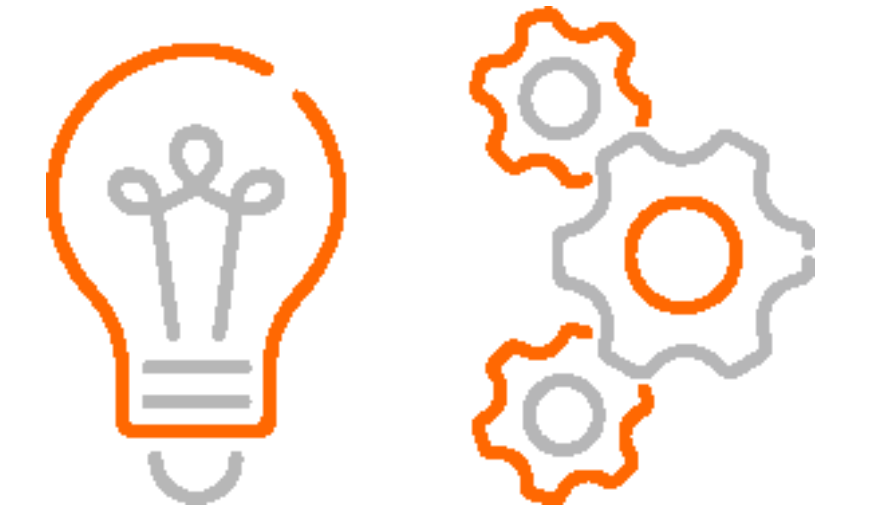

- Stainless steel cabinets with glass doors recessed into walls (implants and other supplies)
- Window from sterile corridor to each OR

WHAT DO WE DO

Branding

Our in-house marketing team is a talented group focused on driving brand growth through creative strategies and collaboration. From digital marketing to content creation.

Preliminary Plan

Our full design team works together to come up with the best layout for your space. That's an engineer, architect and decorator on your design team right from the start!

Permits

Our engineer and architectural technologist are on stand-by to get your plans accurately drawn up and submitted for permits to the city/town for approval.

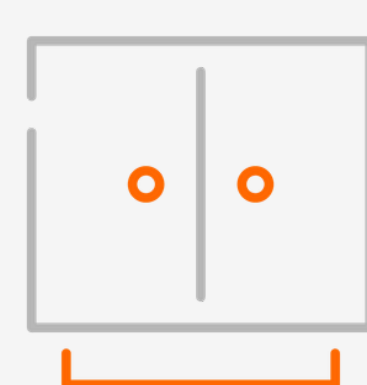

Interior Design

Our in-house interior decorator is ready to help you choose everything you need to visualize the full space including finish selection and 3D renderings.

Construction

With our team of experienced construction leads, we make sure your projects run smoothly from start to finish.

Millwork and Cabinetry

Our skilled in-house team of craftsmen specialize in delivering exceptional millwork and cabinetry, ensuring the highest standard of quality and precision in every project.
